

Greetings MRES Families!

It's time to show some Myakka River Elementary School spirit and have a little fun!

Instead of its usual 28 days in February, this February actually has 29 days. Our Earth takes approximately 365.25 days to complete its orbit. That extra added quarter (.25) of a day is why we have a Leap Year and 29 days this February.

Thursday, February 29th marks a rare and special day. Myakka River Elementary School would like to celebrate and have some fun with our Manatees. We are asking that our students and staff wear green on Thursday, February 29th. While at school, students will read fiction and non-fiction books about frogs. We will also give each student a small frog as a remembrance of their elementary Leap Year experience.

We thank you, in advance, for your support and encouraging your child to wear green on Thursday, February 29th to celebrate Leap Year.

Hoppy "Leaping!"
