## INDEPENDENT AUDITORS' REPORT

Charlotte County District School Board and Superintendent Port Charlotte, Florida

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the Charlotte County District School Board (the District), as of and for the fiscal year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the school internal funds, which are reported herein as agency funds, or the Charlotte Local Education Foundation, Inc., the discretely presented component unit. Together, these entities comprise 16%, 6%, and 1% respectively, of the assets, net assets, and revenues of the aggregate discretely presented component unit and remaining fund information. Both these entities were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the school internal funds and discretely presented component unit, are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the school internal funds were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the District as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Certified Public Accountants**

Charlotte County District School Board and Superintendent Port Charlotte, Florida

## INDEPENDENT AUDITORS' REPORT (Concluded)

In accordance with Government Auditing Standards, we have also issued our report dated December 10, 2012, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the other required supplementary information as listed in the table of contents (collectively, the required supplementary information) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

December 10, 2012

Purvis, Gray and Company, LLP

## DISTRICT SCHOOL BOARD OF CHARLOTTE COUNTY

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Charlotte County have prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2012. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements found on pages 2-58.

## FINANCIAL HIGHLIGHTS

Key financial highlights for the 2011-2012 fiscal year are as follows:

- The assets of the District exceeded its liabilities at June 30, 2012 by \$429,971,927.28.
- ➤ The District's total net assets decreased by \$6,805,053.44, or 1.58 percent decrease from the 2010-2011 fiscal year.
- ➤ General revenues total \$143,540,634.76, or 93.5 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$10,018,784.08 or 6.5 percent.
- At June 30, 2012, the District's governmental funds reported combined fund balances of \$50,120,641.62, a decrease of \$4,278,352.82 from the prior year.
- ➤ The unassigned fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totals \$6,039,020.85 at June 30, 2012, or 4.9 percent of total General Fund expenditures.
- ➤ During the current year, General Fund expenditures exceeded revenues and other financing sources by \$7,802,990.69. This may be compared to last year's results in which General Fund revenues exceeded expenditures by \$1,837,889.74.

## OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- 1. Government-wide financial statements
- 2. Fund financial statements
- 3. Notes to the financial statements

## **Government-wide Financial Statements**

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

(Continued)

The government-wide statements present the District's activities in the following categories:

- Governmental activities This represents most of the District's services including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- Component units The District presents two separate legal entities in this report which are the Charlotte School Board Leasing Corporation and the Charlotte Local Education Foundation, Inc. These entities meet the criteria for inclusion provided by generally accepted accounting principles.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

## **Fund Financial Statements**

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of three broad categories:

• Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue – ARRA Economic Stimulus Funds, Special Revenue Fund – Miscellaneous, Debt Service – Other Debt Service, and the Capital Projects - Local Improvement Fund. Data from other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and major Special Revenue Funds to demonstrate compliance with the budget.

(Continued)

• Proprietary Funds – Proprietary funds may be established to account for activities in which a fee is charged for services. Internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses an internal service fund to account for the Employee Benefits fund and the Special Projects Consortium. Since these services predominately benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.

The internal service funds are combined into a single, aggregated column in the proprietary fund financial statements.

• Fiduciary Funds – Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for resources held for student activities and groups.

## **Notes to Financial Statements**

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. The following is a summary of the District's net assets as of June 30, 2012, compared to net assets as of June 30, 2011.

The largest portion of the District's net assets, \$389,713,082.18 (90.6 percent) reflects its investment in capital assets (e.g. land, buildings, furniture and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net assets, \$30,794,409.19 (7.2 percent), represents resources that are subject to external restrictions on how they may be used. The remaining net assets, \$9,464,435.91 (2.2 percent), are unrestricted net assets. Unrestricted net assets may be used to meet the government's ongoing obligations to citizens and creditors.

The following is a summary of the District's net assets as of June 30, 2012, compared to net assets as of June 30, 2011.

(Decrease) Increase in Net Assets	(6,805,053.44)	2,378,126.70			

(Continued)

The largest revenue source for the 2011-2012 fiscal year is from the property tax levy, which resulted in total revenue for operational and capital purposes of \$95,678,290.66, or 62 percent of total revenues. Property taxes decreased by \$14,100,974.37 or 12.8 percent due to decreases in property values. Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base. Revenue from State sources for current operations total \$29,629,902.89 for the 2011-2012 fiscal year, of which \$7,189,407 is attributable to FEFP funding. Capital grants and contributions decreased by \$694,473.57 or 54.7 percent, due to the loss of appropriations in the 2011-2012 fiscal year for Public Education Capital Outlay.

The following graph shows total revenues by source before extraordinary items:

## **Total Revenues By Source**

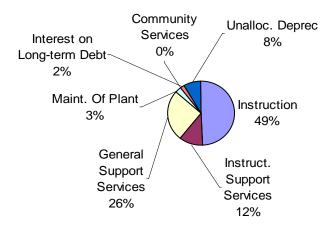

Instructional expenses represent 49 percent of local governmental expenses in the 2011-2012 fiscal year. Instructional expenses decreased by \$6,279,286.05 or 7.4 percent from the previous year due mainly to revenue reductions which were offset with decreases in staffing expenditures and a reduction in the FRS contribution rates.

(Continued)

A table of expenses by function is shown:

## **Total Expenses by Function**

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

## **Major Governmental Funds**

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$50,120,641.62, a decrease of \$4,278,352.82 in comparison with the prior year. The following schedule indicates the fund balances and the total changes in fund balances by major fund and other governmental (nonmajor) funds as reported in the basic financial statements for the fiscal years ended June 30, 2012 and June 30, 2011.

			Increase
Fund Balance	2012	2011	(Decrease)
Major Governmental Funds:			
General Fund	\$8,745,010	\$16,548,001	\$(7,802,991)
Special Revenue:			
ARRA Funds	0	0	0
Miscellaneous	6,743,314	(8,326,631)	15,069,945
Debt Service Funds:			
Other Debt Service			
(Major in 2012)	8,407,230	4,583,044	3,824,186
Capital Projects:			
Local Capital			
Improvement Fund	20,062,819	21,718,326	(1,655,507)
District Bonds			
(Major in 2011)	4,556,186	18,519,487	(13,963,301)
Other Governmental Funds			
(Nonmajor)	1,606,083	1,356,767	249,316
<b>Total Fund Balances</b>	\$50,120,642	\$54,398,994	\$(4,278,352)

(Continued)

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance is \$6,039,020.85 while the total fund balance is \$8,745,010.63. The unassigned fund balance increased by \$525,721.24 while the total fund balance decreased by \$7,802,990.69 during the fiscal year.

- District school taxes decreased by 12.8% which accounts for the majority of the decrease in revenues for the year.
- Total expenditures decreased by \$1,569.69, or .0012%.
- > There were no transfers out to other funds this year.

The District received Special Revenue – ARRA Economic Stimulus Funds this year of \$591,320.54, the majority of which was for reimbursements of expenditures of salaries and benefits.

The Special Revenue – Miscellaneous Fund recognized \$22 million in revenues in 2012 related to the collection of prior year receivables. The net change in fund balance for 2012 was an increase of \$15,069,944.75, and the fund reported a total fund balance of \$6,743,313.90 at June 30, 2012. Of that amount, \$2 million will be used to supplement the general fund budget in 2013, and the remainder will be used for the reconstruction of capital assets and extra expenses associated with hurricane damages caused by Hurricane Charley in August 2004.

Reserves are being accumulated in the Debt Service – Other Debt Service Fund in accordance with debt covenants to pay principal due at maturity.

The Capital Projects – Local Capital Improvement fund balance is \$20,062,819.00, all of which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance decreased by \$1,655,507.15 due mainly to a reduction in tax revenues.

## **BUDGET VARIANCES IN THE GENERAL FUND**

In analyzing the budget variances between the original and final budgets, there were no significant variations in revenue or expenses. Actual revenue variances with the final budget were within acceptable ranges. Expenditures also fell within range, with no significant variations from budget to actual.

## CAPITAL ASSETS AND LONG-TERM DEBT

## **Capital Assets**

During fiscal year ending June 30, 2012, the following major capital transactions occurred.

The District, as part of the hurricane recovery process, continues in its rebuilding process. All six of the schools to be rebuilt have been completed. These facilities are being replaced using funds from insurance proceeds, along with help from FEMA and the State of Florida. The final projects are the reconstruction of the District's warehouse and maintenance facilities.

In addition, Meadow Park Elementary School was completed. Additionally, the first few phases to the Lemon Bay High School construction plans are complete. The final phases are under construction.

Under District policy, school buses are to be replaced every thirteen years. Total cost of new buses for the current year totaled \$908,730.

## **Long-term Debt**

There were no additions or refundings of District debt during the 2011-2012 fiscal year. At June 30, 2012 the District has total long-term debt outstanding of \$8,077,666.42, which is comprised of Qualified Zone Academy and State School Bonds. Additionally, the outstanding balance of Certificates of Participation was \$60,000,000. During the year, retirement of debt amounted to \$415,000. Additional information on the District's long-term debt can be found in the Notes to the Financial Statements.

(Concluded)

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

For fiscal year 2012-2013, the District anticipates a reduction in revenues of approximately \$3 million dollars, due mainly to a reduction in tax levies, as a result of declining gross taxable value. As in past years, a collaborative effort among all employee groups made recommendations to the Superintendent regarding ways to further reduce spending for the upcoming year, including changes to compensation for some groups. Based on those recommendations as well as other changes, the District anticipates expenditure savings of approximately \$1.4 million dollars. In addition, the District has appropriated \$1,157,715 in unassigned fund balance for spending in fiscal year 2012-2013. As a result, this amount was moved from unassigned to assigned fund balance at June 30, 2012. A transfer from Special Revenue Funds of \$2 million will make up the balance of the budget shortfall.

## REQUESTS FOR INFORMATION

This report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate compliance and accountability for its resources. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer.

## CHARLOTTE COUNTY DISTRICT SCHOOL BOARD RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

## **Total Fund Balances - Governmental Funds**

\$ 50,120,641.62

Amounts Reported for Governmental Activities in the Statement of Net Assets are Different Because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

Capital Assets \$563,054,591.66

Accumulated Depreciation (109,225,274.91) 453,829,316.75

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.

6,625,409.14

Debt issuance costs and underwriters' discounts are not expensed in the government-wide financial statements, but are recorded as deferred charges and amortized over the life of the debt.

10,030.48

Interest on long-term debt is accrued as a liability in the government-wide statements, but is not recognized in the government funds until due. This amount is the amount of accrued interest payable at fiscal year-end.

(110,375.00)

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Long-term liabilities at year-end consist of:

Qualified Zone Academy Bonds Payable(5,000,000.00)Certificates of Participation Payable(60,000,000.00)Bonds Payable(3,077,666.42)Compensated Absences Payable(11,018,461.29)Other Postemployment Benefits Payable(1,406,968.00)

**Total Net Assets - Governmental Activities** 

\$429,971,927.28

(80,503,095.71)

# CHARLOTTE COUNTY DISTRICT SCHOOL BOARD RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2012

Net Change	in	Fund	Balances -	Governmental	<b>Funds</b>
------------	----	------	------------	--------------	--------------

\$ (4,278,352.82)

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital outlays in excess of depreciation expense in the current period.

Capital Outlay	\$ 28,928,296.37	
Depreciation Expense	(13,352,069.37)	15,576,227.00

The gain on the disposal of capital assets during the current period is reported in the statement of activities. In the government funds, the cost of these assets was recognized as an expenditure in the year purchased. Thus, the change in net assets differs from the change in fund balance by the undepreciated cost of the disposed assets.

139,754,42

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments in the current period:

Bond Payments	415,000.00	415,000.00

Premiums, refunding losses and debt issuance costs are reported in the governmental funds in the year debt is issued, but are deferred and amortized over the life of the debt in the governmental-wide statements:

Amortization of Debt Issuance Costs	(1,766.54)	
Amortization of Debt Premiums	40,474.46	
Amortization of Refunding Losses	(21,343.86)	17,364.06

Certain hurricane loss recoveries were accrued as receivables in prior years, but not recognized as revenue in the governmental funds until received (or available). They were, however, recorded as revenues in the prior statement of activities. This represents the change in the deferred amounts from June 30, 2011 to June 30, 2012.

(22,117,754.16)

# CHARLOTTE COUNTY DISTRICT SCHOOL BOARD RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2012

(Concluded)

Interest on long-term debt is recognized as an expenditure in the governmental funds when due, but is recognized as interest accrued in the statement of activities. This is the net change in accrued interest in the current period.	\$ 9,375.00
In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences used in excess of the amount earned in the current period.	1,016,295.62
Other postemployment benefits costs are recorded in the statement of activities under the full accrual basis of accounting, but are not recorded in the governmental funds until paid. This is the net increase in the other postemployment benefits liability for the current fiscal year.	(169,227.00)
Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.	 2,586,264.44

\$ (6,805,053.44)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## **Reporting Entity**

The District School Board has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Charlotte County School District (the District) is considered part of the Florida system of public education. The governing body of the District is the Charlotte County District School Board (the Board), which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Charlotte County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. Based on the application of these criteria, the following component units are included within the District's reporting entity:

- Blended Component Unit—The Charlotte County School Board Leasing Corporation (Leasing Corporation), was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.
- **Discretely Presented Component Unit**—The component unit columns in the government-wide financial statements include the financial data of the Charlotte Local Education Foundation, Inc. (the Foundation). The Foundation is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to receive, hold, and administer property and to make expenditures for the benefit of the District. Because of the nature and significance of its relationship with the District, the Foundation is considered a component unit. The financial data reported in the accompanying statements was derived from the audited financial statements of the Foundation for the fiscal year ended June 30, 2012. The financial information is on file in the District's Administrative Office.

## **Basis of Presentation**

## **■** Government-wide Financial Statements

Government-wide financial statements, i.e, the statement of net assets and the statement of activities, present information about the District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **Basis of Presentation** (Continued)

## **■** Government-wide Financial Statements (*Concluded*)

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense is reported as unallocated.

Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements, except for interfund services provided or used.

## **■** Fund Financial Statements

Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- General Fund—to account for all financial resources not required to be accounted
  for in another fund, and for certain revenues from the State that are legally
  restricted to be expended for specific current operating purposes.
- Special Revenue—ARRA Economic Stimulus Fund to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA).
- **Special Revenue—Miscellaneous Fund** to account for the financial resources generated by insurance proceeds and state and federal reimbursements as a result of the damage caused by Hurricane Charley in August of 2004, to be used for recovering damaged materials, supplies, equipment and buildings.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **Basis of Presentation** (Concluded)

- **■** Fund Financial Statements (Concluded)
  - **Debt Service Other Debt Service Fund**—to account for resources accumulated and principal and interest payments made on the 2006 Qualified Zone Academy Bonds and the 2010 Qualified School Construction Bonds.
  - Capital Projects Local Capital Improvement Fund—to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service thereon.

Additionally, the District reports the following proprietary and fiduciary fund types:

- Internal Service Funds—to account for the District's Employee Benefits Program and the financing of the Special Projects Center Consortium, for which the District is the predominant participant and fiscal agent.
- Agency Funds—to account for resources of the school internal funds, which are
  used to administer monies, collected at several schools in connection with school,
  student athletic, class, and club activities.

## **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary funds and fiduciary funds financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Generally, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. However, when grant terms provide that the expenditure of resources is the prime factor for determining eligibility for federal, state, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, other postemployment benefits, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **Basis of Accounting (Concluded)**

Proprietary funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989, and applicable standards issued by GASB. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums and charges for sales and services. Operating expenses include the cost of insurance premiums for the payment of claims and the cost of providing products or services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources (committed, assigned, and unassigned) as they are needed. When unrestricted resources (committed, assigned, and unassigned) are available for use, it is the District's policy to use committed resources first, then assigned, and then unassigned as needed.

The Foundation shown as a discretely presented component unit is reported under the not-for-profit standards using the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred.

## **Cash and Cash Equivalents**

The District's cash and cash equivalents include cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Certain investments are classified as cash equivalents if they meet this criteria. These include amounts placed with the State Board of Administration (SBA) in Florida PRIME, formerly known as the Local Government Surplus Funds Trust Fund Investment Pool, and short-term investments in money market and mutual funds.

## **Deposits and Investments**

Cash deposits are held in qualified public depositories as required under Florida law. These deposits are insured by federal depository insurance up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. Cash deposits at June 30, 2012, totaled \$1,650,484.54 and cash on hand was \$4,715.57. In addition, the District has \$8,739,167.91 in cash in Trust at June 30, 2012, with the Florida School Boards Insurance Trust related to its self-insurance program.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **Deposits and Investments** (Concluded)

Investments are reported at fair value. Investments include those authorized under Florida Statute 218,415(17) or under agreements approved in connection with debt issuances. The statute allows investments in:

- The Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes;
- Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- Interest-bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes; and
- Direct obligations of the United States Treasury.

The Local Government Surplus Funds Trust Fund is operated by the State of Florida Board of Administration and includes the Florida PRIME and the Fund B Surplus Funds Trust Fund (Fund B) investment pools created by Sections 218.405 and 218.417, Florida Statutes. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The state pools are Securities and Exchange Commission Rule 2a7-like external investment pools, similar to money market funds in which shares are owned in the fund rather than the underlying investments. Florida PRIME is carried at amortized cost, which approximates market value. Fund B is accounted for as a fluctuating net asset value pool, with a fair value factor of 0.83481105 of amortized cost at June 30, 2012. Fund B is not subject to participant withdrawal requests. Distributions from Fund B, as determined by SBA, are effected by transferring eligible cash or securities to Florida PRIME, consistent with the pro rata allocation of pool shareholders of record at the creation date of Fund B. One hundred percent of such distributions from Fund B are available as liquid balances within Florida PRIME.

The sinking fund forward delivery agreement related to the District's 2006 Qualified Zone Activities Bonds authorizes investments in direct obligations of the U.S. Government or its agencies, including FNMA and FHLMC, provided the maturity is on or before October 30, 2022.

The master trust and supplemental master trust agreement related to the District's 2010 Qualified School Construction Bonds contain a list of permitted investments, with written Board approval.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **Restricted Cash and Investments**

Cash and investments are restricted in connection with debt covenants. Following is a summary of restricted cash and investments at June 30, 2012:

2006 Qualified Zone Academy Bonds	Sinking Fund	\$ 1,337,655.75
2010A Qualified School Construction Bonds	Sinking Fund	7,069,573.95
2010A Qualified School Construction Bonds	Project Account	 4,996,355.24
<b>Total Restricted Cash and Investments</b>		\$ 13,403,584.94

## **Receivables/Due from Others**

Accounts receivables and due from other agencies are reported at their gross value, and where appropriate are reduced by the estimated portion that is expected to be uncollectible. The allowance for uncollectible amounts at June 30, 2012 is \$0. The District collected approximately \$22 million in 2012 on prior year receivables related to hurricane damage and business interruption from hurricane Charley in 2004.

## **Prepaid Items and Inventories**

Certain prepayments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost using the moving average pricing method, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when consumed rather than purchased.

## **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using group depreciation and the straight-line method over the following original estimated useful lives of the asset group:

Description	Estimated Lives
Description	LIVES
Improvements Other Than Buildings	15 Years
Buildings and Fixed Equipment	20-50 Years
Furniture, Fixtures, and Equipment	7 Years
Motor Vehicles	7-10 Years
Audio Visual Materials and Computer Software	5 Years

Current year information relative to changes in capital assets is described in a subsequent note.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **Accrued Compensated Absences**

The criteria for determining compensated absences (i.e., paid absences for employee vacation and sick leave benefit) liability are derived from Board policy, negotiated agreements, and state law. Vacation benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at year-end by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. Compensated absences include applicable salary related payments for retirement contributions.

In the government-wide financial statements, compensated absences are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported for compensated absences in the governmental fund financial statements only if they have matured (e.g., unused reimbursable leave still outstanding following an employee's resignation or retirement).

Changes in accrued compensated absences for the current year are reported in a subsequent Note.

## **Other Long-term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. Bond premiums and discounts, refunding losses, and issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the unamortized bond premium/discount and refunding loss.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

Changes in long-term liabilities for the current year are reported in a subsequent note.

## **Fund Balances**

GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54) effective in 2011, to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications based on the level of constraints imposed on the uses of the related resources.

(Continued)

## Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **State Revenue Sources**

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the unencumbered balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. There was no allocation for 2012.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

## **District Property Taxes**

The School Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Charlotte County Property Appraiser, and property taxes are collected by the Charlotte County Tax Collector.

The Board adopted the 2010 tax levy on September 6, 2011. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

(Continued)

### Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

### **District Property Taxes (***Concluded***)**

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Charlotte County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

### **Federal Revenue Sources**

The District receives federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

### Note 2 - BUDGETARY COMPLIANCE AND ACCOUNTABILITY

### **Budgetary Information**

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis of accounting as is used for financial reporting in governmental funds.

(Continued)

### Note 2 - BUDGETARY COMPLIANCE AND ACCOUNTABILITY (Concluded)

### **Budgetary Information** (Concluded)

■ Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

### Note 3 - INVESTMENTS

As of June 30, 2012, the District has the following investments and maturities:

Investments	Maturities	 Fair Value
State Board of Administration (SBA):		
Florida PRIME (1)	38-Day Average	\$ 33,657,348.29
Florida PRIME (1) (3)	38-Day Average	12,065,231.78
Fund B Surplus Funds Trust Fund (Fund B)	5.73-Year Average	838,561.13
State of Florida - Debt Service Account	6 Months	88,571.72
Bank of America Funds - Money Market (1)	40 Days	94,920.19
Federal Home Loan Mortgage Corporation (FHLMC)		
Discount Note (2)	October 30, 2012	1,337,598.60
Federated Prime Obligations Fund (1) (3)	Immediate Withdrawal	 243.67
Total Investments		\$ 48,082,475.38

Notes: (1) Investments that have original maturities of three months or less are considered cash equivalents for financial reporting purposes.

- (2) This investment is held under a paying agent agreement and sinking fund forward delivery agreement in connection with the Oualified Zone Academy Bonds (OZAB). See Note 6.
- (3) These investments are held under a master trust agreement and supplemental master trust agreement in connection with the Qualified School Construction Bonds (QSCB). See Note 7.

### **Interest Rate Risk**

- The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.
- Florida PRIME had a weighted average days to maturity (WAM) of 38 days at June 30, 2012. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. Fund B had a weighted average life (WAL) of 5.73 years. A portfolio's WAL is the dollar weighted average length of time until securities held reach maturity. WAL, which also measures the sensitivity of the portfolio to interest rate changes, is based on legal final maturity dates for Fund B as of June 30, 2012. However, because Fund B consists of restructured or defaulted securities there is considerable uncertainty regarding the WAL.

(Continued)

### Note 3 - INVESTMENTS (Continued)

### **Interest Rate Risk** (Concluded)

- The District's investment in the FHLMC discount note is authorized under a forward delivery agreement (FDA) with the QZAB paying agent. The FDA guarantees an interest rate of 3.19%. The Provider of the FDA bears the interest rate risk.
- The District's investments in the Core Fund Class Y (Mutual Fund) and the Federated Prime Obligations Fund are authorized under a master trust and supplemental master trust agreement with the QSCB trustee. The District bears the interest rate risk on these securities.
- The District's investments in the State of Florida debt service accounts will be used for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk (and credit risk) for this account.

### **Credit Risk**

- Section 218.415(17), Florida Statutes, limits investments to ones considered to have low credit risks. Money market funds must be Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency. Investments in interest-bearing time deposits must be in qualified public depositories, as defined in Section 280.02, Florida Statutes. The District's investment policy does not further limit its investment choices.
- As of June 30, 2012, the District's investment in Florida PRIME is rated AAAm by Standard & Poor's. Fund B is unrated.
- The Bank of America Money Market Reserves Fund is rated Aaa by Moody's Investor Services and AAAm by Standard and Poor's.
- The FHLMC discount note is unrated.
- The Federated Prime Obligations Fund is rated Aaa by Moody's Investor Services and AAAm by Standard & Poor's.

### **Custodial Credit Risk**

■ Section 218.415(18), Florida Statutes, requires the District to earmark all investments; and, 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's investment policy does not address custodial credit risk.

(Continued)

### Note 3 - INVESTMENTS (Concluded)

### Custodial Credit Risk (Concluded)

■ The District's investment in the FHLMC discount note is not held by an independent third party custodian.

### Note 4 - CHANGES IN CAPITAL ASSETS

Changes in capital assets are presented in the table below:

	Beginning Balance	Additions	Deletions	Ending Balance
<b>Governmental Activities</b>				
Capital Assets Not Being Depreciated:				
Land	\$ 12,814,823.30			\$ 12,814,823.30
Construction in Progress	49,954,664.00	\$ 25,463,603.20	\$ (26,088,440.10)	49,329,827.10
Total Capital Assets Not Being				
Depreciated	62,769,487.30	25,463,603.20	(26,088,440.10)	62,144,650.40
Capital Assets Being Depreciated:

Total Being Depreciated, Net	375,343,848.03	16,496,586.53	(155,768.21)	391,684,666.35
<b>Total Governmental Activities</b>				
Capital Assets, Net	\$ 438,113,335.33	\$ 41,960,189.73	\$ (26,244,208.31)	\$ 453,829,316.75

The District's capital assets serve several functions; accordingly, depreciation expense, which totals \$13,352,069.37, is not charged to functions but is shown as unallocated on the statement of activities.

(Continued)

### Note 5 - CHANGES IN SHORT-TERM DEBT

Following is a schedule of changes in short-term debt during the year ending June 30, 2012:

	Begin	ning			Enc	ding
	Bala	nce	Additions	Reductions	Bal	ance
Short-term Debt						
Tax Anticipation Note, Series 2011	\$	0	\$ 15,000,000	\$ (15,000,000)	\$	0

On September 30, 2011, the Charlotte County District School Board issued a Tax Anticipation Note, Series 2011, in the amount of \$15 million. The note carried an interest rate of 2% and was repaid on March 31, 2012.

### Note 6 - QUALIFIED ZONE ACADEMY BONDS PAYABLE

On November 27, 2006, the District entered into a financing arrangement, characterized as a lease-purchase agreement, with the Charlotte School Board Leasing Corporation (the Leasing Corporation), a blended component unit, whereby the District secured financing under the Qualified Zone Academy Bonds (QZAB) Program in the amount of \$5,000,000. The QZAB Program provides no interest cost financing to purchase certain goods or services for schools located in eligible District areas (zones). Interest on the debt is "paid" by the United States Government through the issuance of Federal income tax credits to the holder of the QZAB debt (the bank). The rate of return to the lender (Bank of America) was established by the United States Government at the time of the sale.

The financing was accomplished through the issuance of a Series 2006-QZAB Note on November 27, 2006. The \$5,000,000 note proceeds were designated for technology upgrades/replacements, computer laptops, and instructional equipment/materials at the following schools: The Academy at Charlotte Tech Center, Charlotte Harbor Center School, Neil Armstrong Elementary School, Port Charlotte Middle School, and Port Charlotte High School. The Leasing Corporation issued the bonds, purchased the equipment, and then leased the equipment to the District under terms of the lease-purchase agreement.

Repayment of the original \$5,000,000 note is due in full on November 27, 2022. Rent paid by the District to the Leasing Corporation corresponds to the annual debt service requirements on the bonds. Rents are paid from "Available Revenues" of the District, including capital outlay millage revenues. The lease term ends on the date the note is paid in full.

In connection with the financing, the Leasing Corporation assigned its rights to the rent collections to a paying agent (US Bank), and the District entered into a sinking fund forward delivery agreement with the paying agent whereby the District will deposit 16 annual rent payments of \$242,708.40, beginning in 2007, into a sinking fund held by the Custodian (US Bank), as security for the bonds. The Provider of the forward delivery agreement (Bank of America) has guaranteed the investment return of 3.25% per annum, which together with the required annual rent deposits, will be sufficient to repay the debt at maturity. At June 30, 2012, the market value of the sinking fund account was \$1,337,655.75.

(Continued)

### Note 7 - QUALIFIED SCHOOL CONSTRUCTION BOND PAYABLE

In 2010, the District established a master lease-purchase program for the lease-purchase financing of various current and future educational facilities and sites. The general terms of this program were determined pursuant to a Master Lease-Purchase Agreement and Master Trust Agreement between the District and the Leasing Corporation.

On May 28, 2010, the District entered into a financing arrangement with the Leasing Corporation under this program whereby the District secured financing under the Qualified School Construction Bond (QSCB) Program in the amount of \$60,000,000. The QSCB Program was established by Section 1521 of the American Recovery and Reinvestment Act (ARRA) and codified in Section 54A and 54F of the Internal Revenue Code. Among other things, the program provides low interest cost financing to school districts to construct certain education facilities. Interest on the debt is paid by the District, and reimbursed in part by the federal government.

The financing was accomplished through the issuance of a School Board of Charlotte County, Florida Master Lease Program – Master Lease Certificates, Series 2010A – Qualified School Construction Bond (QSCB) in the principal amount of \$60,000,000. The certificate proceeds were received from the lender (Bank of America) and designated for the replacement construction of two schools, Meadow Park Elementary School and Lemon Bay High School. Under terms of Lease Schedule 2010A to the Master Lease-Purchase Agreement, and other related agreements, the District provided a ground lease to the Leasing Corporation, then would construct, acquire, install and lease-purchase the projects from the Leasing Corporation.

Repayment of the original \$60,000,000 certificate proceeds is due in full on May 1, 2027. Interest payments are due semi-annually based on a 5.70% annual interest rate, and a federal interest subsidy reimbursement is available at an annual rate of 5.29%. Rent paid by the District to the Leasing Corporation corresponds to the annual debt service requirements on the bonds. Rents are paid from "Available Revenues" of the District, including capital outlay millage revenues. The lease term ends on the date the certificates are paid in full.

In connection with the financing and pursuant to a Series 2010A Supplemental Master Trust Agreement, the Leasing Corporation assigned its rights to the rent collections to a Trustee (Regions Bank), requiring the District to deposit the 17 annual "basic" rent payments of \$3,529,412 (corresponding to the principal portion of the bond), beginning in 2011, into a sinking fund held by the Trustee, as security for the bond. These amounts will be sufficient to pay the \$60 million principal balance at maturity. Investment income earned in the Sinking Fund can be used to reduce future annual rent payments. At June 30, 2012, the market value of the sinking fund account was \$7,069,573.95. The Project account balance is \$4,996,355.24.

(Continued)

### Note 8 - STATE SCHOOL BONDS PAYABLE

State school bonds payable at June 30, 2012, are as follows:

Bond Type	Amount Outstanding	Interest Rates (Percent)	Annual Maturity <u>To</u>
State School Bonds:			
Series 2005B, Refunding	\$ 2,775,000.00	5.0	2018
Series 2009A, Refunding	195,000.00	2.0 - 5.0	2019
Subtotal	2,970,000.00		
Add: Unamortized Premium on Debt	225,525.85		
(Less): Unamortized Refunding Loss	(117,859.43)		
<b>Total Bonds Payable</b>	<u>\$ 3,077,666.42</u>		

The various bonds were issued by the State Board of Education to finance capital outlay projects of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

Annual requirements to amortize all state school bonded debt outstanding as of June 30, 2012, are as follows:

Fiscal	Y	ear	End	lıng
--------	---	-----	-----	------

<b>June 30</b>	Total	<b>Principal</b>	 Interest
State School Bonds:			
2013	\$ 578,150.00	\$ 430,000.00	\$ 148,150.00
2014	582,000.00	455,000.00	127,000.00
2015	579,250.00	475,000.00	104,250.00
2016	580,500.00	500,000.00	80,500.00
2017	585,500.00	530,000.00	55,500.00
2018-2019	610,000.00	580,000.00	 30,000.00
<b>Total State School Bonds</b>	 3,515,400.00	 2,970,000.00	 545,400.00
Add: Unamortized Premium on Debt (Less): Unamortized Difference Between The Reacquisition Price and Net Carrying	225,525.85	225,525.85	.00
Amount of Old Debt  Total	\$ (117,859.43) 3,623,066.42	\$ (117,859.43) 3,077,666.42	 .00 545,400.00

(Continued)

### Note 9 - CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities:

	Beginning			Ending	Due in
Description	Balance	Additions	Deletions	Balance	One Year
<b>Governmental Activities</b>					
Qualified Zone Academy Bonds	\$ 5,000,000.00			\$ 5,000,000.00	
Qualified School Construction Bond	60,000,000.00			60,000,000.00	
State Bonds Payable	3,511,797.02		\$ (434,130.60)	3,077,666.42	\$ 430,000.00
Estimated Insurance Claims Payable	1,196,300.00	\$13,278,709.47	(13,357,829.41)	1,117,180.06	
Compensated Absences Payable	12,034,756.91	1,168,563.39	(2,184,859.01)	11,018,461.29	1,458,099.58
Other Postemployment					
Benefits Payable	1,237,741.00	416,408.00	(247,181.00)	1,406,968.00	
<b>Total Governmental Activities</b>	\$82,980,594.93	\$14,863,680.86	\$ (16,224,000.02)	\$81,620,275.77	\$1,888,099.58

For the governmental activities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund. Estimated insurance claims payable are generally liquidated with resources of the General Fund. Due to the nature of the liability there is no amount of other postemployment benefits due in one year.

### Note 10 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The following is a summary of interfund receivables and payables reported in the fund financial statements:

	Interfund						
<b>Funds</b>		Receivables		Payables			
Major:							
General	\$	336,836.21					
Special Revenue:							
ARRA Economic Stimulus			\$	62,436.88			
Capital Projects:							
Local Capital Improvement		93,000.00					
Nonmajor Governmental				330,739.79			
Fiduciary – Agency				36,659.54			
Total	\$	429,836.21	\$	429,836.21			

Interfund receivables and payables are temporary loans of cash between funds for a period of less than 13 months. The temporary loans will be repaid in the next fiscal year.

The following is a summary of interfund transfers reported in the fund financial statements:

	<u>Interfund</u>						
Funds		Transfers In		ransfers (Out)			
Major:		_					
General	\$	4,800,000.00					
Debt Service:							
Other Debt Service		4,018,820.40					
Capital Projects:							
Local Capital Improvement Fund			\$	8,818,820.40			
Total	\$	8,818,820.40	\$	8,818,820.40			

(Continued)

### Note 10 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (Concluded)

Interfund transfers represent permanent transfers of money between funds. Funds are transferred to the General Fund from the Capital Projects Funds to finance District maintenance projects, equipment purchases, and property insurance. The transfer to the debt service fund is to fund required annual sinking fund payments.

### Note 11 - FUND BALANCE REPORTING

GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54) effective in 2011, to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications based on the level of constraints imposed on the uses of the related resources.

GASB 54 provides for two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because (a) they are not expected to be converted to cash or (b) they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has inventories and prepaid items that are considered nonspendable. The District does not have any nonspendable funds related to endowments.

In addition to the nonspendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints:

- <u>Restricted</u>—This component of fund balances consists of amounts that are constrained either (a) externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments), or (b) by law through constitutional provisions or enabling legislation. Note the same definition is used for restricted net assets on the statement of net assets.
- <u>Committed</u>—This component of fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (e.g., resolution) of the District's governing board. These committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (e.g., resolution) it employed previously to constrain those amounts.
- <u>Assigned</u>—This component of fund balance consists of amounts that are constrained by a less-than-formal action of the District governing board, or by an individual or body to whom the governing board has delegated this responsibility. By definition, fund balances are also assigned to the extent that they are needed to finance a subsequent years' budget deficit.
- <u>Unassigned</u>—This classification is used for (a) negative unrestricted fund balances in any governmental fund, or (b) fund balances within the general fund that are not restricted, committed or assigned.

(Continued)

### Note 11 - FUND BALANCE REPORTING (Concluded)

### **Minimum Fund Balance Policy**

State statutes require the District maintain an unreserved general fund balance that is sufficient to address normal contingencies. The District Superintendent must notify the Board and State of Florida Commissioner of Education if at any time the unreserved general fund balance in the District's operating budget is projected to fall during the fiscal year below three percent (3%) of projected general fund revenues.

Board Policy #6233 provides that "to ensure the financial strength and stability of the District, the Board directs each year the Board's adopted budget include, to the extent reasonable, a reserve for contingencies of not less than three percent (3%) of the District's general fund revenues."

### Note 12 SCHEDULE OF STATE REVENUE SOURCES

The following is a schedule of the District's State revenue for the 2011-2012 fiscal year:

Source	Amount
Florida Education Finance Program	\$ 7,189,407.00
Categorical Educational Programs:	
Class Size Reduction/Operating Funds	17,367,227.00
School Recognition Funds	573,027.00
Voluntary Prekindergarten Program	547,315.63
District Discretionary Lottery Funds	51,764.00
Workforce Development Program	2,606,461.00
Workforce Development Program Incentive	55,789.00
Motor Vehicle License Tax (Capital Outlay and Debt Service)	676,628.31
Miscellaneous	 562,283.95
Total	\$ 29,629,902.89

Accounting policies relating to certain State revenues sources are described in Note 1.

### Note 13 - PROPERTY TAXES

The following is a summary of millages and taxes levied on the 2012 tax roll for the 2011-2012 fiscal year:

General Fund	Millages	 Taxes Levied
Nonvoted School Tax:		
Required Local Effort	5.096	\$ 68,464,162.00
Basic Discretionary Local Effort	0.748	10,049,292.00
Capital Projects Funds	Millages	Taxes Levied
Nonvoted Tax:		
Local Capital Improvements	1.500	 20,152,324.00
Total	7.344	\$ 98,665,778.00

(Continued)

### Note 14 - FLORIDA RETIREMENT SYSTEM

All regular employees of the District are covered by the State-administered Florida Retirement System (FRS). Provisions relating to FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112 Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of FRS. FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined benefit pension plan (Plan), a Deferred Retirement Option Program (DROP), and a defined contribution plan, referred to as the Public Employee Optional Retirement Program (PEORP).

For employees hired prior to July 1, 2011, employees in the Plan vest at six years of service. These vested members are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, which may include up to 4 years of credit for military service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in PEORP in lieu of the Plan. District employees participating in DROP are not eligible to participate in PEORP. Employer contributions are defined by law; however, the ultimate benefit depends in part on the performance of investment funds. PEORP is funded by employer contributions that are based on salary and membership class (Regular, Elected County Officers, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in PEORP vest after one year of service.

During its 2011 regular session, the State Legislature adopted legislation that made significant changes to the FRS with respect to employee contributions, employer contributions and other items. Effective July 1, 2011, all members of the FRS must contribute 3% of their gross compensation toward their retirement. The following other changes only apply to employees who are initially enrolled in the FRS on or after July 1, 2011: final average compensation is now based on the employee's average of the eight highest (formerly five highest) fiscal years of compensation during credited service; the DROP interest accrual rate is reduced from 6.50% to 1.30%; the normal retirement age is increased from 62 to 65; the years of creditable service is increased from 30 to 33; and the vesting period is increased to eight years from six years.

(Continued)

### Note 14 - FLORIDA RETIREMENT SYSTEM (Concluded)

### **FRS Retirement Contribution Rates**

The Florida Legislature establishes, and may amend, contribution rates for each membership class of FRS. During the 2011-2012 fiscal year, contribution rates were as follows:

	Percent of Gross Salary	
	<b>Employee</b>	Employer (A)
Florida Retirement System, Regular	3.00	4.91
Florida Retirement System, Elected County Officers	3.00	11.14
Florida Retirement System, Senior Management Service	3.00	6.27
Deferred Retirement Option Program – Applicable to Members		
from all of the Above Classes	0.00	4.42

The District's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan for the fiscal years ended June 30, 2010, June 30, 2011, and June 30, 2012, totaled \$6,978,956.69, \$7,722,141.30, and \$3,185,303.19, respectively, which were equal to the required contributions for each fiscal year. Beginning July 1, 2011, employees were required to contribute 3% of their gross salary to the respective plans. Employee contributions for the Plan for the fiscal year ended June 30, 2012 were \$1,764,484.28. There were 526 PEORP participants during the 2011-2012 fiscal year. Required contributions to PEORP totaled \$1,077,221.87, with employee contributions of \$653,925.22.

The financial statements and other supplementary information of FRS are included in the comprehensive annual financial report of the State of Florida, which may be obtained from the Florida Department of Financial Services. Also, an annual report on FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services, Division of Retirement.

### Note 15 - OTHER POSTEMPLOYMENT BENEFITS PAYABLE

### **Plan Description**

The Other Postemployment Benefits Plan (Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, employees who retire from the District and their eligible dependents are eligible to participate in the District's health and hospitalization plan for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the Plan on average than those of active employees. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The Plan does not issue a stand-alone report, and is not included in the report of a Public Employee Retirement System or another entity.

(Continued)

### Note 15 - OTHER POSTEMPLOYMENT BENEFITS PAYABLE (Continued)

### **Funding Policy**

Plan contribution requirements of the District and Plan members are established and may be amended through action from the Board. The District has not advance-funded or established a funding methodology for the annual other postemployment benefit (OPEB) costs or the net OPEB obligation, and the Plan is financed on a pay-as-you-go basis. For the 2011-12 fiscal year, 64 retirees received other postemployment benefits. The District provided required contributions of \$247,181 toward the annual OPEB cost, net of retiree contributions totaling \$680,739, which represents 0.7% of covered payroll.

### **Annual OPEB Cost and Net OPEB Obligation**

The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the fiscal year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation:

Description	Amount		
Normal Cost (Service Cost for One Year)	\$	189,314	
Amortization of Unfunded Actuarial Accrued Liability		269,371	
Annual Required Contribution		458,685	
Interest on Net OPEB Obligation		55,698	
Adjustment to Annual Required Contribution		(97 <u>,975</u> )	
Annual OPEB Cost (Expense)		416,408	
Estimated Contributions Made		(247,181)	
Increase in Net OPEB Obligation		169,227	
Net OPEB Obligation, Beginning of Year		1,237,741	
Net OPEB Obligation, End of Year	\$	1,406,968	

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation as of June 30, 2012, and the preceding years, were as follows:

	Percentage of					
Fiscal Year Ending		Annual OPEB	Annual OPEB Cost		Net OPEB	
June 30		Cost	Contributed	0	bligation	
2008	\$	564,329	40.66%	\$	334,873	
2009		592,837	46.68%		650,997	
2010		753,224	62.52%		933,285	
2011		784,862	61.21%		1,237,741	
2012		416,408	59.36%		1,406,968	

(Continued)

### Note 15 - OTHER POSTEMPLOYMENT BENEFITS PAYABLE (Concluded)

### **Funded Status and Funding Progress**

As of January 1, 2012, the most recent valuation date, the actuarial accrued liability for benefits was \$3,328,950, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$3,328,950 and a funded ratio of 0%. The covered payroll (annual payroll of active participating employees) was \$63,062,639, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 5.3%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to financial statements presents multiyear trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive Plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of January 1, 2012, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2012, and to estimate the District's 2011-12 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4.5% rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 4% per year, and an annual healthcare cost trend rate of 8.5% initially for the 2011-12 fiscal year, reduced by 0.5% per year, to an ultimate rate of 5.0% after 11 years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2012, was 13 years.

### Note 16 - CONSTRUCTION CONTRACT COMMITMENTS

The following is a summary of major construction contract commitments remaining at fiscal year-end:

(Continued)

### Note 16 - CONSTRUCTION CONTRACT COMMITMENTS (Concluded)

Project		Contract Amount	Completed To-date	Balance Committed	
Lemon Bay High School:					
Architect	Phase I - IV a	\$ 2,345,526.11	\$ 2,279,554.26	\$ 65,971.85	
Architect	Phase IV b - V	2,265,993.96	1,299,423.67	966,570.29	
Contractor	Phase IV a - b	11,490,050.75	4,010,114.01	7,479,936.74	
Contractor	Phase V	150,000.00		150,000.00	
Punta Gorda Center:					
Architect	Warehouse	384,990.00	342,586.07	42,403.93	
Architect	Maintenance	585,000.00	500,650.20	84,349.80

### Note 17 - CONSORTIUMS

The District is a member of the Special Projects Center Consortium (Center), a four-district consortium formed to provide educational media to support the educational programs of the schools served by the Center. The Center offices are located in Charlotte County, and the Charlotte County District School Board is the fiscal agent and has established an internal service fund to account for the program. The consortium dissolved effective June 30, 2012.

The District is also a member of the Small School District Council Consortium, a consortium organized to provide educational information, interpretation, and consultation.

### Note 18 - RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Charlotte County District School Board is a member of the South Central Educational Risk Management Program (SCERMP), a consortium under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members of the SCERMP. Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. SCERMP is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for SCERMP is composed of superintendents of all participating districts. Employer's Mutual, Inc., serves as fiscal agent for SCERMP.

(Continued)

### Note 18 - RISK MANAGEMENT PROGRAMS (Concluded)

The property and casualty group under SCERMP is a public entity risk pool which was organized to develop, implement, and administer a multi-district cooperative property and casualty risk management program for the member school boards in which risk of loss is transferred to the group. The School Board makes an annual contribution to the group for its property and casualty coverage. The interlocal agreement and bylaws of the property and casualty group provide that the group will be self-sustaining through member contributions. However, member school boards are subject to supplemental contributions in the event of a contribution deficiency, except to the extent of the coverage available, then such deficiency is solely the responsibility of that member school board. In addition, it is the property and casualty group's policy to reinsure through commercial insurance carriers for workers' compensation and property loss claims in excess of specified amounts. The amount of settlements did not exceed insurance coverage for each of the past three fiscal years.

Effective January 1, 2010, the District contracted an administrator to manage the health and hospitalization self-insurance program, including the processing, investigating, and payment of claims. The insurance administrator has been approved by the Florida Department of Financial Services, Office of Insurance Regulation. The District's liability for health and hospitalization coverage is limited by excess insurance to \$225,000 per individual per plan year.

As of June 30, 2012, a liability in the amount of \$1,117,180.06 was actuarially determined to cover estimated incurred but not reported insurance claims payable.

The following schedule represents the changes in claim liability for the current and past fiscal year for the District's self-insurance fund:

		,	Current Year		
	Beginning		Claims and		
	Fiscal		Changes in		Balance at
Fiscal	Year		Estimated	Claims	Fiscal
<b>Year</b>	<b>Liability</b>		Liability	 Payments	Year-end
2011-12	\$1,196,300.00	\$	13,278,709.47	\$ (13,357,829.41)	\$ 1,117,180.06
2010-11	1,371,000.00		14,246,760.00	(14,421,460.00)	1,196,300.00

Settled claims resulting from these risks have not exceeded coverage in any of the past three years.

### Note 19 - INTERNAL SERVICE FUNDS

The following is a summary of financial information as reported in the internal service funds for the 2011-2012 fiscal year:

(Concluded)

### Note 20 - NON-FEDERAL SHARE FOR HEAD START PROGRAMS

For the Head Start and Early Head Start grants, the District is required to provide 20% of the total amount expended using non-Federal funds and donated goods and services. Local funds expended were for facilities, equipment and district support staff, such as therapists, psychologists and teachers. Donated goods and services were provided by the community and were used for the benefit of the program. During this fiscal year, for grant number 04CH3161/45 with a period ending October 31, 2011, the required amount of non-Federal share is \$181,880.07. For grant number 04CH3161/46 the required amount of non-Federal share during the period November 1, 2011 through June 30, 2012 is \$350,712.72.

### CHARLOTTE COUNTY DISTRICT SCHOOL BOARD NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2012

### Note 1 - BUDGETARY BASIS OF ACCOUNTING

Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

### Note 2 - SCHEDULE OF FUNDING PROGRESS – OTHER POSTEMPLOYMENT BENEFITS

The January 1, 2012, projected unfunded actuarial accrued liability of \$3,328,950 was significantly lower than the January 1, 2010, liability of \$6,042,832 as a result of benefit changes and other changes in liabilities and costs as discussed below:

- Initial Cost of Coverage and Retiree Contributions In the previous valuation, the cost of coverage was expected to increase from \$776 to \$909 per employee per month; however, the cost actually decreased to \$706 per employee per month for the year beginning January 1, 2012. At the same time, monthly contributions required from retirees increased from \$538 to \$539 for single coverage. These changes had a decreasing effect on the cost and liability.
- Population Changes The number of enrolled retirees receiving post-employment health-care benefits decreased from 77 in the previous valuation to 64 in the latest valuation. At the same time, the number of active employees eligible for future post-employment health-care benefits decreased from 1,653 to 1,605. This change had a decreasing impact on the cost and liability resulting from the valuation.
- *Medical Trend Assumption* The actuary revised the rate of coverage acceptance from 20% in the prior valuation to 25% in the latest valuation, based on updated data. This change had an increasing effect on the cost and liability. Furthermore, the actuary continued the rate of coverage lapsing at 65 to be 95%.
- Medicare Offset Assumption The actuary changed an assumption pertaining to the cost of coverage for retirees eligible for Medicare. In the prior valuation, they had assumed that the employer's costs for claims incurred by Medicare eligible retirees would be 35% lower than the cost of the same claim incurred by a retiree who is not eligible for Medicare benefits. In the latest valuation, they increased that percentage to 45%. This change had a decreasing effect on the cost and liability.
- *Demographic Assumptions* The actuary also revised assumed retirement rates to reflect changes made the Florida Retirement System for its July 1, 2011 actuarial valuation. This had a very modest decreasing effect on the cost and liability.

ADDITIONAL ELEMENTS OF REPORT PREPARED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS, ISSUED BY THE COMPTROLLER GENERAL OF THE UNITED STATES; THE PROVISIONS OF THE OFFICE OF MANAGEMENT AND BUDGET (OMB) CIRCULAR A-133; AND RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

### **Notes:**

- (1) <u>Basis of Presentation</u>: The Schedule of Expenditures of Federal Awards represents amounts expended from Federal programs during the 2011-12 fiscal year as determined based on the modified accrual basis of accounting. The amounts reported on the Schedule reconciled to and are in material agreement with amounts recorded in the District's accounting records from which the basic financial have been statements have been prepared.
- (2) <u>Noncash Assistance:</u> <u>National School Lunch Program</u> Represents the amount of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.
- (3) <u>Head Start:</u> For grant number/program 4CH3161/45, expenditures include Head Start PA-22 \$520,367.21 and PA-20 \$35,059.13 and Early Head Start PA-25 \$156,519.86 and PA-11 \$15,574.06. For grant number/program 4CH3161/46, expenditures include Head Start PA-22 \$983,729.57 and PA-20 \$21,401.57, and Early Head Start PA-25 \$388,595.52 and PA-11 \$9,124.21.

### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Charlotte County District School Board and Superintendent Port Charlotte, Florida

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Charlotte County District School Board (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 10, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the school internal funds and the discretely presented component unit, as described in our report on the District's financial statements. For the discretely presented component unit, this report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the school internal funds were not audited in accordance with *Government Auditing Standards*.

### **Internal Control Over Financial Reporting**

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (Concluded)

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the District in our separate management letter dated December 10, 2012.

This report is intended solely for the information and use of management, the District Board, others within the entity, the State of Florida Auditor General, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

### INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Charlotte County District School Board and Superintendent
Port Charlotte, Florida

### Compliance

We have audited the Charlotte County District School Board's (the District) compliance with the types of compliance requirements described in the OMB Circular A-133, *Compliance Supplement*, that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2012. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

### **Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

(Concluded)

### **Internal Control Over Compliance** (Concluded)

Purvis, Gray and Company, LLP

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the District Board, others within the entity, the State of Florida Auditor General, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

No matters were reported. No summary schedule of prior audit findings is required.

### CORRECTIVE ACTION PLANNED FOR CURRENT YEAR AUDIT FINDINGS

There are no current year audit findings included in the current year schedule of findings and questioned costs.

### MANAGEMENT LETTER

Charlotte County District School Board and Superintendent Port Charlotte, Florida

We have audited the financial statements of the Charlotte County District School Board (the District), as of and for the fiscal year ended June 30, 2012, and have issued our report thereon dated December 10, 2012. Our report was modified to include references to other auditors. Other auditors audited the financial statements of the school internal funds (reported as agency funds), and the Charlotte Local Education Foundation, Inc., (the discretely presented component unit). This letter does not include matters related to these other entities.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. We have issued our report on internal control over financial reporting and compliance and other matters, report on compliance requirements that could have a direct and material effect on each major federal program and on internal control over compliance, and schedule of findings and questioned costs. Disclosure in those reports and schedule, which are dated December 10, 2012, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.800, *Rules of the Auditor General*, which governs the conduct of district school board audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditors' reports or schedule:

- Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no findings or recommendations made in the preceding financial report.
- Section 10.804(1)(f)3., *Rules of the Auditor General*, requires our audit to include a review of the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that the District complied with Section 218.415, Florida Statutes.
- Section 10.804(1)(f)4., *Rules of the Auditor General*, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

### **Certified Public Accountants**

Charlotte County District School Board and Superintendent Port Charlotte, Florida

### MANAGEMENT LETTER (Concluded)

- Section 10.804(1)(f)5., *Rules of the Auditor General*, requires that we address violations of provisions of contract or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.
- Section 10.804(1)(f)6., *Rules of the Auditor General*, provides that the auditor may, based on professional judgment, report the following matters that have an inconsequential effect on the financial statements considering both quantitative and qualitative factors: (1) violations of provisions of contracts or grant agreements, fraud, illegal acts, or abuse; and (2) deficiencies in internal control that are not significant deficiencies. In connection with our audit, we did not have any such findings.
- Section 10.804(1)(f)2., *Rules of the Auditor General*, requires a statement be included as to whether or not the district school board has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- Pursuant to Sections 10.804(1)(f)7.a. and 10.805(6), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.
- Section 10.804(1)(f)8., *Rules of the Auditor General*, requires the auditor to state whether or not the district school board complied with transparency requirements. (Section 2, Specific Appropriation 115A of Chapter 2010-152, Laws of Florida, provides that district school boards include a link on their websites to the Transparency Florida website). In connection with our audit, we determined that the District complied with transparency requirements.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of management, the District Board, others within the entity, the State of Florida Auditor General, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used for anyone other than these specified parties.
