### Notes

- (1) <u>Basis of Presentation:</u> The Schedule of Expenditures of Federal Awards represents amounts expended from Federal programs during the 2015-16 fiscal year as determined based on the modified accrual basis of accounting. The amounts reported on the Schedule have been reconciled to and are in material agreement with amounts recorded in the District's accounting records from which the basic financial statements have been prepared.
- (2) Noncash Assistance: National School Lunch Program Represents the amount of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.
- (3) <u>Head Start:</u> Expenditures include \$797,147.69 for grant number/program 04CH4774/01 and \$1,407,133.11 for grant number/program year 04CH4774/02.
- (4) Special Education Grants to States: Total CFDA 84.027 expenditures: \$4,601,202.87.

Exhibit A-1 Page 1

### MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Charlotte County have prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2016. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the D District's financial statements and notes to financial statements found on pages 2 through 59.

### FINANCIAL HIGHLIGHTS

Key financial highlights for the 2015-2016 fiscal year are as follows:

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at June 30, 2016 by \$358,598,172.12.
- The District's total net position decreased by \$9,579,661.74, or 2.7% decrease from the 2014-2015 fiscal year.
- ➤ General revenues total \$156,077,801.52, or 93.1% of all revenues in the 2015-2016 fiscal year, compared to \$154,533,643.22, or 93.0% in the prior year. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$11,615,317.81 or 6.9%, compared to \$11,609,561.72, or 7.0% in the prior year.
- At June 30, 2016, the District's governmental funds reported combined fund balances of \$42,535,311.57, a decrease of \$42,501.85 for the year.
- The unassigned fund balance of the General Fund, representing the net current financial resources available for future appropriation, totals \$7,509,605.79 at June 30, 2016, or 5.86% of total General Fund expenditures.
- During the current year, General Fund expenditures and other financing uses exceeded revenues and other financing sources by \$1,864,536.13. This may be compared to last year's results in which General Fund expenditures and other financing uses exceeded revenues and other financing sources by \$1,205,549.72.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- 1. Government-wide financial statements
- 2. Fund financial statements
- 3. Notes to the financial statements

### Government-Wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial

position, its assets, liabilities, and deferred outflows/inflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equal net position, which is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in the following categories:

- Governmental activities This represents most of the District's services including its educational programs: basic, career, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- Component units The District presents two separate legal entities in this report which are the
  Charlotte School Board Leasing Corporation and the Charlotte Local Education Foundation, Inc.
  Although legally separate organizations, the component units are included in this report because they
  meet the criteria for inclusion provided by the Governmental Accounting Standards Board. Financial
  information for the Charlotte Local Education Foundation is reported separately from the financial
  information presented for the District.

Over a period of time, changes in the District's net position are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets, including its school buildings and administrative facilities.

#### **Fund Financial Statements**

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of three broad categories:

Governmental Funds — Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds use a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. In particular, the sum of the assigned and unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures and changes in fund balances provide detailed information about the District's most significant funds. The District's major

funds are the General Fund, Special Revenue – Federal Economic Stimulus Programs, Special Revenue Fund – Other Federal Programs, Debt Service – ARRA Economic Stimulus Fund, and the Capital Projects – Local Capital Improvement Fund. Data from other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and major Special Revenue Funds to demonstrate compliance with the budget.

<u>Proprietary Funds</u> – Proprietary funds may be established to account for activities in which a fee is charged for services. Internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses an internal service fund to account for the Employee Benefits Fund. Since the services predominately benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.

The internal service funds are combined into a single, aggregated column in the proprietary fund financial statements.

<u>Fiduciary Funds</u> – Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for resources held for student activities and groups.

### Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide other postemployment benefits to its employees.

### GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The following is a summary of the District's net position at June 30, 2016, compared to net position as of June 30, 2015.

### District School Board of Charlotte County Net Position For the Fiscal Year Ending June 30, 2016 and June 30, 2015

	Governmental Activities		
	2016	2015	
Assets:			
Current and Other Assets	\$56,523,188.22	\$59,933,481.12	
Capital Assets	438,886,813,03	449,339,114.80	
Total Assets	\$495,410,001.25	\$509,272,595.92	
Deferred Outflows of Resources	14,915,900.00	11,495,192.47	
Liabilities:			
Long-Term Liabilities	138,431,961.32	122,416,600.44	
Other Liabilities	6,152,382.14	8,517,433.09	
Total Liabilities	144,584,343.46	130,934,033.53	
Deferred Inflows of Resources	7,145,528.00	21,655,921.00	
Net Position:			
Net Investment in Capital Assets	372,712,920.55	382,712,081.16	
Restricted	32,966,457.17	31,094,182.11	
Unrestricted	(47,081,205.60)	(45,628,429.41)	
Total Net Position	\$358,598,172.12	\$368,177,833.86	

The largest portion of the District's net position, \$372,712,920.55 (103.9%) is investment in capital assets (e.g. land, buildings and furniture, fixtures, and equipment), net of any relating debt outstanding. The District uses these net capital assets to provide services to students; consequently, these net assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position, \$32,966,457.17 (9.2%) represents resources that are subject to external restrictions on how they may be used. The remaining net position, \$(47,081,205.60), or (-13.1%), is unrestricted and generally is used to meet the government's on-going obligations to citizens and creditors. The amount turned negative in 2015 in conjunction with the implementation of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions.

Governmental Activities - Key elements of the changes in the District's net position for the fiscal years ended June 30, 2016, and June 30, 2015, are as follows:

### District School Board of Charlotte County Operating Results and Changes in Net Position For the Fiscal Year Ending June 30, 2016 and June 30, 2015

Governmental	Activities
--------------	------------

	2016	2015

Community Services	178,460.51	201,785.24
Interest on Long-Term Debt	3,532,054.36	3,519,982.59
Unallocated Depreciation Expenses	23,031,559.19	22,873,311.19
Total Program Expenses	177,272,781.07	173,027,522.10
Change in Net Position	(9,579,661.74)	(6,884,317.16)
Net position - Beginning	368,177,833.86	375,062,151.02
Net position - Ending	\$358,598,172.12	\$368,177,833.86

Governmental activities decreased the District's net position by \$9,579,661.74. Key elements are as follows:

The largest revenue source is property taxes for operational purposes, which increased by \$2,092,139.68, or 2.7%, as a result of an increase in taxable assessed values and a 2.6% decrease in the total millage rate.

A significant revenue source is the State of Florida (21.6%). Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school Districts, taking into consideration the District's funding ability based on the local property tax base.

Total grants and contributions not restricted to specific program revenues decreased by \$539,063.45, or 1.1%, primarily due to an increase in FEFP revenues.

Instruction expenses accounted for approximately 44.7% of total governmental expenses for the 2015-2016 fiscal year. Instruction expenses increased by \$2,192,036.25, or 2.8% from the previous year due mainly to additional instructional positions.

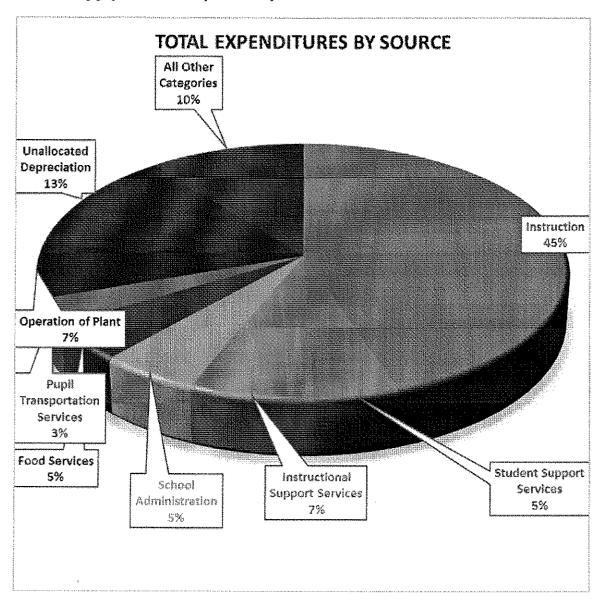

The following graph shows total revenues by source:

### Total Revenues by Source

- Charges for Services, 2.3%
- Operating Grants and Contributions, 4.1%
- \* Capital Grants and Contributions, .5%
- # Property Taxes, Operational Purposes, 48.2%
- ≈ Property Taxes, Capital Projects, 12.6%
- Grants and Contributions Not Restricted to Specific Programs, 30.4%
- Unrestricted Investment Earnings, .2%
- Miscellaneous, 1.6%

The following graph shows total expenditures by source:

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

#### Governmental Funds

The focus of the governmental funds is to provide information on *near-term* inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a District's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

The total fund balances of governmental funds decreased by \$42,501.85 during the fiscal year to \$42,535,311.57 at June 30, 2016. Approximately 17.7% of this amount is unassigned (\$7,509,605.79) fund balance, which is available for spending at the District's discretion. The remainder of the fund balance is nonspendable, restricted, or assigned to indicate that it is 1) not in spendable form (\$841,357.97), 2) restricted for particular purposes (\$30,403,426.75), or 3) assigned for particular purposes (\$3,780,921.06).

### Major Governmental Funds

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance is \$7,509,605.79 while the total fund balance is \$8,368,621.53. As a measure of the General Fund's liquidity, it may be useful to compare the total unassigned fund balance to General Fund total revenues. The total unassigned fund balance is approximately 6.2 percent of the total General Fund revenues while total fund balance represents approximately 6.9 percent of total General Fund revenues.

The total fund balance decreased by \$1,864,536.13 during the fiscal year. Key factors impacting the change in fund balance are as follows:

- Increases in total State revenues of \$264,469.45 or 0.8 percent, and increases in local property tax values which resulted in increased tax revenues of \$2,092,139.68 (2.7%) accounts for the majority of the increase in revenues for the year.
- Total salaries increased by \$2.4 million, or 3.0%, due mainly to the full year effect of an across the board staff raise in the prior year that was given at the half year point.
- Transfers from other funds decreased by \$1,250,000.00, or 18.7%.

The Special Revenue — Other Federal Programs Fund has total revenues and expenditures of \$11,631,766.92 each, and the funding was mainly used for instruction and instruction related services. Because grant revenues and expenditures in this fund are recognized as mentioned in the previous paragraph, this fund generally does not accumulate a fund balance. Activity in this fund did not significantly change from the prior fiscal year.

The Debt Service – ARRA Federal Economic Stimulus Fund has a total fund balance of \$21,204,844.64. This fund is restricted for the accumulation of resources for, and the payment of, debt principal, interest and related costs on the Qualified School Construction Bonds. The fund balance increased in the current fiscal year due to scheduled sinking fund deposits.

The Capital Projects – Local Capital Improvement Fund has a fund balance of \$6,259,549.87, all of which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance decreased by \$2,348,042.83 due mainly to the completion of building projects at Lemon Bay High School.

### **Proprietary Funds**

Unrestricted net position of the Employee Self-Insurance Fund decreased by \$519,583.46 during the 2015-2016 fiscal year to \$6,338,061.01 at June 30,2016. Fund expenses exceeded premium revenues and

reimbursements, but \$.5 million of program surplus was transferred back to the General Fund during the year.

### BUDGET VARIANCES IN THE GENERAL FUND

During the 2015-2016 fiscal year, the District amended its General Fund budget several times, which resulted in an increase of total budgeted revenues of \$268,718.00, or .2%. At the same time, final appropriations are higher than the original budgeted amounts by \$724,657.00, or .6%. Budget revisions occurred primarily from changes in tax revenues received, adjustments to State FEFP revenues and corresponding adjustments to planned expenditures to ensure maintenance of an adequate fund balance.

Budgeted revenues exceeded actual revenues by \$236,976.96, while actual expenditures are \$1,574,005.40, or 1.2% less than final budget amounts. The decrease in expenditures was primarily due to continued cost containment measures implemented by the District. The actual ending fund balance exceeded the estimated fund balance contained in the final amended budget by \$1,382,903.87.

### CAPITAL ASSETS AND LONG-TERM DEBT

#### Capital Assets

The District's investment in capital assets totaled \$438,886,813.03 as of June 30, 2016, (net of accumulated depreciation). This investment in capital assets includes land; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; construction in progress; and computer software. The total decrease in capital assets for the current fiscal year was approximately 2.3 percent.

Major capital asset events included the following:

- > Completion of major construction phases at Lemon Bay High School.
- ➤ Under District policy, school buses are to be replaced every thirteen years. Total cost of new buses for the current year totaled \$791,094.

### Long-term Debt

At June 30, 2016, the District has total long-term debt outstanding of \$66,176,034.81, comprised of \$5,000,000 Qualified Zone Academy Bonds payable, \$60,000,000 of Qualified School Construction Bonds payable, and \$1,176,034.81 of bonds payable. During the current fiscal year, net retirement of debt was \$443,852.30.

The District's bonds outstanding at June 30, 2016, totaling \$1,176,034.81, were issued by the State Board of Education, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds.

Additional information on the District's long-term debt are in note II, I to the financial statements.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The latest enrollment projections for the District indicate a decrease of 78 students during the 2016-2017 fiscal year, which will decrease State revenue to some extent.

Employer contributions to the Florida Retirement System increased for regular employees from 7.26 to 7.52 percent of payroll for the 2016-2017 fiscal year.

Housing prices are expected to increase the taxable assessed value for the 2016-2017 fiscal year.

For fiscal year 2016-2017, the District anticipates an overall increase in revenues of approximately \$1.4 million dollars, due mainly to increases in property tax receipts and FEFP. However, expenditures are budgeted to increase 1.4% over fiscal year 2015-2016 actual expenditures.

### REQUESTS FOR INFORMATION

This report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate compliance and accountability for its resources. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer.

### DISTRICT SCHOOL BOARD OF CHARLOTTE COUNTY RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION For the Fiscal Year Ended June 30, 2016

Total Fund Balances - Governmental Funds		\$42,535,311.57
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets, net of accumulated depreciation, used in governmental activities are not		
financial resources and, therefore, are not reported as assets in the governmental funds.		
Capital Assets	\$614,797,043.89	
Accumulated Depreciation	-154,853,948.99	438,886,813.03
Deferred outflows of resources are not available to pay for current period expenditures and are		
therefore not reported in governmental funds.		
Unamortized Bond Refunding Losses	2,142,33	
Retirement System Contributions	6,083,393.00	
Retirement System Other	8,819,420.00	14,904,955.33
Deferred inflows of resources are not available to pay for current period expenditures and are		
therefore not reported in governmental funds.		
Retirement System - Investment Income	-6,339,193.00	
Retirement System - Other	-793,248.00	(7,132,441.00)
V		
Interest on long-term debt is accrued as a liability in the government-wide statements, but is		
not recognized in the government funds until due. This amount is the amount of accrued interest		(400 D## DD)
payable at fiscal year-end.		(102,957.00)

The notes to financial statements are an integral part of this statement. ESE 145

**Total Net Position - Governmental Activities** 

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds

are included in governmental activities in the statement of net position.

Long-term liabilities are not due and payable in the current period and,

therefore, are not reported as liabilities in the governmental funds.

DISTRICT SCHOOL BOARD OF CHARLOTTE COUNTY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2016

### Net Change in Fund Balances - Governmental Funds

(\$42,501.85)

(9,579,661.74)

Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as a depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period:		
Capital Outlay	\$12,660,818.50	
Depreciation Expense	-23,031,559.19	(10,370,740.69)
	· · · · · · · · · · · · · · · · · · ·	, , , ,
The statement of activities reflects only the gain/loss on the sale of assets, whereas		
the governmental funds include all proceeds from these sales. Thus, the change in		
net position differs from the change in fund balances by the cost of assets sold.		(81,561.08)
Park and the control of the control		
Bond proceeds provide current financial resources to governmental funds, but issuing debt		
increases long-term liabilities in the statement of net position. Repayment of bond principal		
is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in		
the statement of net position. This is the amount by which repayments exceeded proceeds in the		
current period.		427,000.00
Promisms and refunding leases are recentled in the second of the second		
Premiums and refunding losses are recognized in the governmental funds in the year debt is		
issued, but are deferred and amortized over the life of the debt in the governmental-wide statements:  Amortization of Debt Premiums	26072 *2	
Amortization of Refunding Losses	26,852.30	06444
Amoruzation of Retunding Losses	-711.14	26,141.16
Interest on long-term debt is recognized as an expenditure in the governmental funds when due, but is recognized as interest accrued in the statement of activities. This is the net change in accrued		
interest in the current period.		19,596.63
		,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,
Certain revenues have not been recognized in governmental funds because they do not meet the		
availability criteria for recognition. These "unavailable revenues" are recognized in the		
government-wide statements.		(20,735.37)
The change in accrued compensated absences and other postemployment benefits costs are		
recorded in the statement of activities under the full accrual basis of accounting, but are not recorded		
in the governmental funds until paid. This is the net (increase) decrease in these long-term		
liabilities for the current fiscal year:		
Accrued Compensated Absences	133,945.92	
Accrued Postemployment Benefit Obligation	<del>-731,339.00</del>	(597,393.08)
Contain abancas in the leasure of section 180 at 20 at		
Certain changes in the items related to the District's participation in a mutliple-employer		
retirement system are reported only at the government-wide level. Following are the changes		
in these amounts for the current fiscal year:  Net Pension Liability	16 353 030 00	
Deferred Outflows - Pension Contributions	-16,353,838.00	
Deferred Outflows - Pension Other	-47,200.00	
Deferred Onthows - Pension Oner  Deferred Inflows - Pension Investments	3,457,674.00	
Deferred Inflows - Pension Other	14,541,638.00	1 500 115 00
Potottor mitono - I ension Offici	-18,158.00	1,580,116.00
Internal service funds are used by management to charge the cost of certain activities,		
such as insurance, to individual funds. The net revenue of internal service		
funds is reported with governmental activities.		(519,583.46)
		(017,000.40)

The notes to financial statements are an integral part of this statement.

ESE 145

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. <u>Description of Government-wide Financial Statements</u>

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. Fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other non-exchange transactions. The primary government is reported separately from certain legally separated component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense is reported as unallocated.

### B. Reporting Entity

The Charlotte County District School Board (the Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Charlotte County School District (the District) is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education, and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Charlotte County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. Based on the application of these criteria, the following component units are included within the District's reporting entity:

**Blended Component Unit**. A blended component unit, is in substance, part of the primary government's operations, even though it is a legally separate entity.

The Charlotte County School Board Leasing Corporation(Leasing Corporation), was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

<u>Discretely Presented Component Unit</u>. The component unit columns in the government-wide financial statements include the financial data of the District's other component unit. A separate column is used to emphasize that it is legally separate from the District.

The Charlotte Local Education Foundation, Inc. (Foundation) is a separate not-for-profit corporation organized and operated as a direct-support organization to receive, hold, and administer property and to make expenditures for the benefit of the District. Because of the nature and significance of its relationship with the District, the Foundation is considered a component unit.

### C. <u>Basis of Presentation – Government-wide Financial Statements</u>

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

### D. <u>Basis of Presentation – Fund Financial Statements</u>

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component unit. Separate statements for each fund category — governmental, proprietary, and fiduciary — are presented. The emphasis of fund financial statements is on major funds. Each major governmental fund is displayed in a separate column, and nonmajor governmental funds are aggregated and reported in a single column.

The District reports the following major governmental funds:

General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

- Special Revenue Federal Economic Stimulus Fund to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA).
- Special Revenue Other Federal Program Funds to account for certain Federal program resources.
- ▶ <u>Debt Service Federal Economic Stimulus Fund</u> to account for the accumulation of resources for, and the payment of, debt principal, interest and related costs on the District's qualified school construction bonds (QSCB).
- Capital Projects -Local Capital Improvement Fund to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments.

Additionally, the District reports the following proprietary and fiduciary fund types:

- ➤ <u>Internal Service Funds</u> to account for the District's Employee Benefits Program.
- Agency Funds to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities.

Inter-fund Transactions/Eliminations - During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, transfers between the funds included in governmental activities are eliminated in the preparation of the government-wide financial statements.

### E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the

type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available.

Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Generally, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The Agency funds have no measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities.

The discretely presented component unit, the Charlotte Local Education Foundation, Inc., is reported using the economic resources measurement focus and the accrual basis of accounting.

### F. Assets, Liabilities, and Net Position/Fund Balance

### 1. Cash and Cash Equivalents

The District's cash and cash equivalents include cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Certain investments classified as cash equivalents if they meet this criteria. These include amounts placed with the State Board of Administration (SBA) in Florida PRIME, formerly known as the Local Government Surplus Funds Trust Fund Investment Pool, and money market funds, except that amounts held in escrow for long-term debt are not considered to be cash equivalents.

Cash deposits are held by banks qualified as public depositories under Florida law. These deposits are insured by federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

### 2. Investments

Carrying Value - Investments are reported at fair value.

**Authorized Investments** – Investments include those authorized under Section 218.415(17) Florida Statutes, or under agreements approved in connection with debt issuances. The statute allows investments in:

- The Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes.
- Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
- Interest-bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes.
- Direct obligations of the United States Treasury.

The sinking fund forward delivery agreement related to the District's 2006 Qualified Zone Activities Bonds authorizes investments indirect obligations of the U. S. Government or its agencies, including FNMA and FHLMC, provided the maturity is on or before October 30, 2022. The master trust and supplemental master trust agreement related to the District's 2010 Qualified School Construction Bonds contain a list of permitted investments, with written Board approval.

The Local Government Surplus Funds Trust Fund – The Local Government Surplus Funds Trust Fund is operated by the State of Florida Board of Administration and includes Florida PRIME and the Fund B Surplus Funds Trust Fund (Fund B) investment pools created by Sections 218.405 and 218.417, Florida Statutes. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The state pools are Securities and Exchange Commission Rule 2a7-like external investment pools, similar to money market funds in which shares are owned in the fund rather than the underlying investments. Florida PRIME is carried at amortized cost, which approximates market value.

### **Restricted Cash and Investments**

Cash and investments are restricted in connection with debt covenants. Following is a summary of restricted cash and investments at June 30, 2015:

2006 Qualified Zone Academy Bonds	Sinking Fund	\$2,572,033.17
2010A Qualified School Construction Bonds	Sinking Fund	21,204,844.64
Total Restricted Cash and Investments		\$23,776,877.81

### 3. Receivables/Due from Other Agencies

Accounts receivables and due from other agencies are reported at their gross value, and where appropriate are reduced by the estimated portion that is expected to be uncollectible. The allowance for uncollectible amounts at June 30, 2016 is \$0.00.

### 4. Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost using the moving average pricing method, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

Certain prepayments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

### 5. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using group depreciation and the straight-line method over the following estimated useful lives of the asset group:

Description Estimated Lives

Improvements 15 Years

Buildings and Fixed Equipment 20-50 Years

Furniture, Fixtures and Equipment 7 Years

Motor Vehicles 7-10 Years

Computer Software 5 Years

Current year information relative to changes in capital assets is described in a subsequent note.

### 6. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium/discount. Unamortized refunding losses are reported as deferred outflows. Issuance costs are expensed in the year incurred.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if they have matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Changes in long-term liabilities for the current year are reported in a subsequent note.

### 7. Deferred Outflows/Deferred Inflows

In addition to assets, the statement of net position or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position (or fund balance) that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position (balance sheet) will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position (or fund balance) that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

### 8. Equity Flow Assumptions

#### **Net Position**

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

### **Fund Balance**

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow of assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is deleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

### 9. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring use of resources for specific purposes. The District itself can establish limitations on the use of resources

through either a commitment (committed fund balance) or an assignment (assigned fund balance).

**Nonspendable Fund Balance** – Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.

**Restricted Fund Balance** — Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.

Committed Fund Balance - Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balance at June 30, 2015.

Assigned Fund Balance - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The District may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Also classified as assigned are amounts that are constrained to be used for specific purposes based on actions of the Superintendent. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**Unassigned Fund Balance** – Unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents spendable amounts that have not been restricted, committed, or assigned for specific purposes.

Minimum Fund Balance Policy – State statutes require the District maintain a general fund balance not classified as restricted, committed, or nonspendable that is sufficient to address normal contingencies. The District Superintendent must notify the Board and the State of Florida Commissioner of Education if at any time the unreserved general fund balance in the

District's operating budget is projected to fall during the fiscal year below three percent (3%) of projected general fund revenues.

Board Policy #6233 provides that "to ensure the financial strength and stability of the District, the Board directs that each year's final adopted budget shall include an appropriated (unassigned) projected fund balance of not less than five percent (5%) of the District's general fund revenues". The projected fund balance may be allowed to fall below five percent (5%) only after a super majority vote of the Board.

### G. Revenues and Expenditures/Expenses

### 1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues.

The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

### 2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the

same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved in the governmental fund financial statements for the unencumbered balance of categorical and earmarked educational program resources.

### 3. District Property Taxes

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Charlotte County Property Appraiser, and property taxes are collected by the Charlotte County Tax Collector.

The Board adopted the 2015 tax levy on September 8, 2015. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Charlotte County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

### 4. Federal Revenue Sources

The District receives federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

### 5. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### 6. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health insurance Subsidy (HIS) defined benefit plan and additions to/deductions from FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

### II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

### A. Cash Deposits with Financial Institutions

**Custodial Credit Risk-Deposits** - In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

Cash balances from all funds are combined and invested to extent available. Earnings are allocated monthly to each fund balance based on average daily balances.

### B. Investments

As of June 30, 2016, the District has the following investments and maturities:

Investment	Maturities	Fair Value
State Board of Administration (SBA)		
Florida Prime (1)	39 day average	\$11,403,669.90
Florida Prime (1)(3)	39 day average	\$21,204,844.64
Debt Service Accounts	6 months	26,192.22
Federal National Mortgage Assoc (FNMA) (2)	10/30/2016	2,572,033.17
<u> </u>		
Total investments		\$35,206,739.93

- Notes: (1) Investments that have original maturities of three months or less are considered cash equivalents for financial reporting purposes.
  - (2) This investment is held under a paying agent agreement in connection with the Qualified Zone Academy Bonds (QZAB). See Note II I.
  - (3) This investment is held under a paying agent agreement in connection with the Qualified School Construction Bonds (QSCB). See Note it I.

### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Florida PRIME had a weighted average days to maturity (WAM) of 39 days at June 30, 2016. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

The District's investment in the FNMA discount note is authorized under a forward delivery agreement (FDA) with the QZAB paying agent. The FDA guarantees an interest rate of 3.21%. The Provider of the FDA bears the interest rate risk.

The District's investments in the State of Florida debt service accounts will be used for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies

developed by the SBA for managing interest rate risk (and credit risk) for this account.

### Credit Risk

Section 218.415(17), Florida Statutes, limits investments to ones considered to have low credit risks. Money market funds must be Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency. Investments in interest-bearing time deposits must be in qualified public depositories, as defined in Section 280.02, Florida Statutes. The District's investment policy does not further limit its investment choices.

As of June 30, 2016, the District's investment in Florida PRIME is rated AAAm by Standard & Poor's.

The FNMA investment note is rated Aaa by Moody's Investor Services and AA+ by Standard and Poor's.

### Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's investment policy does not address custodial credit risk.

The District's investment in the FNMA discount note is held in a custodial account by the paying agent.

### C. Changes in Capital Assets

Changes in capital assets are presented in the table below.

GOVERNMENTAL ACTIVITIES	Balance 7-01-15	Additions	Deletions	Balance 6-30-16
Capital Assets Not Being Depreciated:				
Land	\$12,814,723.30			\$12,814,723.30
Construction in Progress	29,437,901.12	\$10,384,884.05	(39,793,480.14)	29,305.03
Total Capital Assets Not Being Depreciated	42,252,624.42	10,384,884.05	(39,793,480.14)	12,844,028.33
Capital Assets Being Depreciated:				
Improvements Other Than Buildings	6,656,306.15	3,938.03		6,660,244.18
Buildings and Fixed Equipment	514,121,408.14	39,740,849.59		553,862,257.73
Furniture, Fixtures, and Equipment	25,860,828.30	1,518,893.97	(1,323,193.85)	26,056,528.42
Motor Vehicles	14,042,946.66	791,094.00	(733,644.55)	14,100,396.11
Computer Software	1,258,950.12	14,639.00		1,273,589.12
Total Capital Assets Being Depreciated	561,940,439.37	42,069,414.59	(2,056,838.40)	601,953,015.56
Less Accumulated Depreciation for:				
Improvements Other Than Buildings	(5,197,051.00)	(200,581.00)		(5,397,632.00)
Buildings and Fixed Equipment	(118,521,791.83)	(19,554,416.90)		(138,076,208.73)
Furniture, Fixtures, and Equipment	(20,228,498.06)	(2,188,407.34)	1,279,056.82	(21,137,848.58)
Motor Vehicles	(9,815,248.98)	(1,020,773.95)	696,220.50	(10,139,802.43)
Audio-Visual Materials and				, , ,
Computer Software	(1,091,359.12)	(67,380.00)		(1,158,739.12)
Total Accumulated Depreciation	(154,853,948.99)	(23,031,559.19)	1,975,277.32	(175,910,230.86)
Total Capital Assets Being Depreciated, Net	407,086,490.38	19,037,855.40	(81,561.08)	426,042,784.70
Governmental Activities Capital Assets, Net	\$449,339,114.80	\$29,422,739.45	(\$39,875,041.22)	\$438,886,813.03

The District's capital assets serve several functions; accordingly, depreciation expense, which totals \$23,031,559.19, is not charged to functions but is shown as unallocated on the statement of activities.

### D. Florida Retirement Systems

### General Information about the Florida Retirement System (FRS)

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any state-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to FRS are established by Chapters 121 and 122; Florida Statutes; Chapter 112 Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' web site (www.dms.myflorida.com).

The District's pension expense totaled \$6,083,393 for the fiscal year ended June 30, 2016 (all plans).

### **FRS Pension Plan**

<u>Plan Description.</u> The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- Regular Class Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officer Class Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) Members in senior management level positions.

• Special Risk – Members who are employed as law enforcement officers and meet the criteria to qualify for this class, (not applicable to the District).

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or at any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits.

The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	% Value
Regular Class members initially enrolled before July 1, 2011	
Retirement up to Age 62 or up to 30 Years of Service	1.60
Retirement at Age 63 or with 31 Years of Service	1.63
Retirement at Age 64 or with 32 Years of Service	1.65
Retirement at Age 65 or with 33 or more Years of Service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to Age 65 or up to 33 Years of Service	1.60
Retirement at Age 66 or with 34 Years of Service	1.63
Retirement at Age 67 or with 35 Years of Service	1.65
Retirement at Age 68 or with 36 or more Years of Service	1.68
Elected County Officers	3.00
Senior Management Service Class	2.00
Special Risk Regular	
Service from December 1, 1970 through September 30, 1974	2.00
Service on and after October 1, 1974	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions.</u> The Florida Legislature establishes contribution rates for participating employers and employees. Contributions rates during the 2014-15 fiscal year were as follows:

FRS - District:

	Percent of C	Gross Salary
Class	<b>Employee</b>	<b>Employer</b>
Florida Retirement System, Regular	3.00	5.56
Florida Retirement System, Elected County Officers	3.00	40.57
Florida Retirement System, Senior Management Service	3.00	19.73
DROP - Applicable to Members from All of the		
Above Classes	0.00	11.22
FRS, Reemployed Retiree	(1)	(1)

Notes: (1) Contribution rates are dependent upon retirement class in which employed.

The District's contributions, including employee contributions, to the Plan totaled \$7,079,128 for the fiscal year ended June 30, 2016. This excludes the HIS defined benefit pension plan contributions.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.</u> At June 30, 2016, the District reported a liability of \$26,614,839 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The District's proportionate share of the net pension liability was based on the District's 2014-15 fiscal year contributions relative to the fiscal year 2014-15 fiscal year contributions of all participating members. At June 30, 2015, the District's proportion was .206055534%, which was an increase of .000775794 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$2,257,004 related to the Plan. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Employer Contributions after Measurement Date	\$4,611,702.00	
Difference Between Expected and Actual		
Experience	2,809,739.00	\$631,223.00
Changes of Assumptions	1,766,516.00	
Changes in Proportion and Difference Between		
District Contributions and Proportionate Share	•	
of Contributions	1,542,243.00	
Net Difference Between Projected and Actual	. ,	
Earnings on Pension Plan Investments		6,355,178.00
Total	\$10,730,200.00	\$6,986,401.00

The deferred outflows of resources related to pensions, totaling \$4,611,702, resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending	Amount
2017	(\$553,460.00)
2018	(\$553,460.00)
2019	(\$553,460.00)
2020	(\$553,458.00)
2021	1,035,335.00
2022	310,600.00
Total	(\$867,903.00)

<u>Actuarial Assumptions.</u> The total pension liability in the July 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary Increases	3.25% Average, Including Inflation
Investment Rate of Return	7.65% Net of Pension Plan Investment
	Expense, Including Inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

NOWNER OF A STORE WALLES AND ADDRESS AND A	Target	Arlthmetic	(Geometric)	Standard
Asset Class	Allocation (1)	Return	Return	Deviation
Cash	1.00%	3.11%	3,10%	1.65%
Intermediate-Term Bonds	18.00%	4.18%	4.05%	5.15%
High Yield Bonds	3.00%	6.79%	6.25%	10.95%
Broad US Equities	26.50%	8.51%	6.95%	18.90%
Developed Foreign Equities	21.20%	8.66%	6.85%	20.40%
Emerging Market Equities	5.30%	11.58%	7.60%	31.15%
Private Equity.	6.00%	11.80%	8.11%	30.00%

Total	100.00%			
Assumed inflation - Mean	***************************************	2.60%	900 600 AV A 1000 (10 to to to to to to to to to to to to to	2.00%
Note (1) As outlined in the Plan's in	vestment policy	**************************************	* ************************************	07070707070

<u>Discount Rate.</u> The discount rate used to measure the total pension liability was 7.65%. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

<u>Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate.</u> The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.65%, as well as what the District's proportionate share of the net pension liability would be if it were calculated

using a discount rate that is 1-percentage-point lower (6.65%) or 1-percentage-point higher (8.65%) than the current rate:

FRS - District:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.65%)	(7.65%)	(8.65%)
District's proportionate share of			
the net pension liability	\$68,965,059	\$26,614,836	(\$8,627,506)

<u>Pension Plan Fiduciary Net Position.</u> Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

<u>Payables to the Pension Plan.</u> At June 30, 2016, the District reported a payable of \$388,142.23 for the outstanding amount of contributions to the Plan required for the fiscal year end June 30,2016.

### **HIS Pension Plan**

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

<u>Benefits Provided.</u> For the fiscal year ended June 30, 2016, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive an HIS Plan benefit, a retiree under a Stateadministered retirement system must provide proof of health insurance coverage, which may include Medicare.

<u>Contributions.</u> The HIS plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2016, the contribution rate was 1.66% of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$1,471,691 for the fiscal year ended June 30, 2016.

Pension Liobilities, Pension Expense, and Deferred Outflows of Resources ond Deferred Inflows of Resources Related to Pensions. At June 30, 2016, the District reported a net pension liability of \$29,528,039 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The District's proportionate share of the net pension liability was based on the District's 2014-15 fiscal year contributions relative to the 2014-15 fiscal year contributions of all participating members. At June 30, 2015, the District's proportionate share was .289535232%, which was a decrease of .002050287 from its proportionate share measured as of June 30, 2014.

For the fiscal year ended June 30, 2016, the District recognized pension expense of \$2,246,272 related to the HIS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Employer Contributions after Measurement Date Difference Between Expected and Actual Experience	\$1,471,691.00	
Changes of Assumptions Changes in Proportion and Difference Between District Contributions and Proportionate Share	2,323,087.00	
of Contributions Net Difference Between Projected and Actual	374,938.00	159,127.00
Earnings on Pension Plan Investments	15,984.00	
Total	\$4,185,700.00	\$159,127.00

The deferred outflows of resources related to pensions, totaling \$1,471,691, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending	Amount
2017	\$413,496.00
2018	\$413,496.00
2019	\$413,496.00
2020	\$413,494.00
2021	409,500.00
2022	491,400.00
Total	\$2,554,882.00

<u>Actuarial Assumptions.</u> The total pension liability in the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary Increases	3.25% Average, Including Inflation
Municipal Bond Rate	3.80% Net of Pension Plan Investment
•	Expense, Including Inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.8%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate.</u> The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.8%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.8%) or 1-percentage-point higher (4.8%) than the current rate:

	1%	Current	1%
	Decrease (2.80%)	Discount Rate (3.80%)	Increase {4.80%}
District's proportionate share of	**************************************		
the net pension liability	\$33,645,826	\$29,528,039	\$26,094,423

<u>Pension Plan Fiduciary Net Position.</u> Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

<u>Payables to the Pension Plan.</u> At June 30, 2016, the District reported a payable of \$6,466.18 for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2016.

### FRS - Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices.

Allocations to the investment member's accounts during the 2015-16 fiscal year were as follows:

	Percent of
	Gross
Class	Compensation
Florida Retirement System, Regular	6.30
Florida Retirement System, Elected County Officers	11.34
Florida Retirement System, Senior Management Service	7.67
	***
Notes: (1) Contribution rates are dependent upon retiremen	nt dass in which employed

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04% of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended June 30, 2016, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$1,304,442 for the fiscal year ended June 30, 2016.

<u>Payables to the Investment Plan.</u> At June 30, 2016, the District reported a payable of \$131,388.96 for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2016.

### E. Other Postemployment Benefit Obligations

<u>Plan Description</u>. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, employees who retire from the District and their eligible dependents are eligible to participate in the District's health and hospitalization plan for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system or another entity.

<u>Funding Policy</u>. Plan contribution requirements of the District and Plan members are established and may be amended through recommendations of the Insurance Committee and from action from the Board. The District has not advance-funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis. For the 2015-16 fiscal year, 71 retirees received other postemployment benefits. The District provided required contributions of \$41,063 toward the annual OPEB cost, net of retiree contributions totaling \$690,276, which represents 1.4 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation. The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of Governmental Accounting Standards Board Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the fiscal year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation:

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation as of June 30, 2015, and the preceding years, were as follows:

### Required Actuarial Information (GASB STATEMENT NO. 45)

Normal Cost (service cost for one year) Amortization of Unfunded Actuarial Accrued Liability	\$280,968 596,124
Annual Required Contribution (ARC)	877,092
Interest on Net OPEB Obligation Adjustment to Annual Required Contribution	85,908 (272,724)
Annual OPEB Cost (Expense)	690,276
Contributions Made	41,063
Increase in Net OPEB Obligation Net OPEB Obligation, Beginning of Year	731,339 2,454,518
Net OPEB Obligation, End of Year	\$3,185,857

### **Schedule of Employer Contributions**

Fiscal Year Ending	Annual OPEB Cost	Amount Contributed	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$596,402	\$159,978	26.82%	\$2,033,377
6/30/2015	\$603,097	\$181,956	30.17%	\$2, <b>4</b> 54,518
6/30/2016	\$690,276	(\$41,063)	-5.95%	\$3,185,857

Funded Status and Funding Progress. As of January 1, 2016, the most recent valuation date, the actuarial accrued liability for benefits was \$5,273,623 and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$5,273,623 and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$62,956,152, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 8.38 percent.

Actuarial valuations of an ongoing OPEB plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding

the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to financial statements presents multiyear trend information about whether the actuarial value of OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

<u>Actuarial Methods and Assumptions</u>. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of January 1, 2016, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2016, and to estimate the District's 2015-16 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 3.5 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 3.5 percent per year, and an annual healthcare cost trend rate of 6.5 percent initially for the 2015-16 fiscal year, reduced by 0.5 percent per year, to an ultimate rate of 4.6 percent after 24 years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2016, was 9 years.

### F. Construction and Other Significant Commitments

As Lemon Bay High School was completed during this fiscal year, there were no major construction contract commitments remaining at fiscal year-end.

### G. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has established self-insurance programs for its employee health and hospitalization and its workers' compensation liability coverage. For workers' compensation and most of its other insurance coverage, effective July 1, 2015, the District participates in a group self-insurance program administered by the

Florida School Boards Association, Inc. The District's covered risks relating to property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary the members are included in the group program.

Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The program is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the program is composed of one board member from each participating district and a superintendent and district-level business officer selected from one of the participating districts.

Effective January 1, 2010, the District contracted an administrator to manage the health and hospitalization self-insurance program, including the processing, investigating, and payment of claims. The insurance administrator has been approved by the Florida Department of Financial Serviced, Office of Insurance Regulation. The District's liability for health and hospitalization coverage is limited by excess insurance to \$300,000 per individual per plan year.

As of June 30, 2016, a liability in the amount of \$1,600,390.50 was actuarially determined to cover estimated incurred but not reported insurance claims payable.

The following schedule represents the changes in claim liability for current and past fiscal year for the District's self-insurance fund:

Fiscal Year	Beginning Fiscal Year Liability	Current Year Claims and Changes in Est. Liability	Claims Payments	Balance at Fiscal Year-end
2015-16	\$2,082,408.40	\$15,454,674.63	(\$15,936,692.53)	\$1,600,390.50
2014-15	\$1,741,541.55	\$15,064,449.35	(\$14,723,582.50)	\$2,082,408.40

### H. Changes in Short-term Debt

The following is a schedule of changes in short-term debt:

	Beginning Balance	Additions	Deletions	Ending Balance
Short-term Debt				
Tax Anticipation Notes	-	\$ 19,000,000.00	19,000,000.00	-

On September 3, 2015, the Charlotte County District School Board issued Tax Anticipation Note, Series 2015, in the amount of \$19 million. The note carried an interest rate of 1.0 percent and was repaid on March 31, 2016.

### I. Long-term Liabilities

### 1. Qualified Zone Academy Bonds Payable

On November 27, 2006, the District entered into a financing arrangement, characterized as a lease-purchase agreement, with the Charlotte School Board Leasing Corporation, whereby the District secured financing under the Qualified Zone Academy Bonds (QZAB) Program in the amount of \$5,000,000. The QZAB Program provides no interest cost financing to purchase certain goods or services for schools located in eligible District areas (zones). The QZAB Program provides no interest cost financing to purchase certain goods or services for schools located in eligible District areas (zones). Interest on the debt is "paid" by the United States Government through the issuance of Federal income tax credits to the holder of the QZAB debt (the bank). The rate of return to the lender (Bank of America) was established by the United States Government at the time of the sale.

The financing was accomplished through the issuance of a Series 2006-QZAB Note on November 27, 2006. The \$5,000,000 note proceeds were designated for technology upgrades/replacements, computer laptops, and instructional equipment/materials at the following schools: The Academy at Charlotte Tech Center, Charlotte Harbor Center School, Neil Armstrong Elementary School, Port Charlotte Middle School, and Port Charlotte High School. The Leasing Corporation issued the bonds, purchased the equipment, and then leased the equipment to the District under terms of the lease-purchase agreement.

Repayment of the original \$5,000,000 note is due in full on November 27, 2022. Rent paid by the District to the Leasing Corporation corresponds to the annual debt service requirements on the bonds. Rents are paid from "Available Revenues" of the District, including capital outlay millage revenues. The lease term ends on the date the note is paid in full.

In connection with the financing, the Leasing Corporation assigned its rights to the rent collections to a paying agent (US Bank), and the District entered into a sinking fund forward delivery agreement with the paying agent whereby the District will deposit 16 annual rent payments of \$242,708.40, beginning in 2007, into a sinking fund held by the Custodian (US Bank), as security for the bonds. The Provider of the forward delivery agreement (Bank of America) provides a guaranteed investment return of 3.25 percent per annum, which together with the required annual rent deposits, will be sufficient to repay the debt at maturity. As of June 30, 2016, the market value of the sinking fund account was \$2,572,033.17.

### 2. Qualified School Construction Bond Payable

In 2010, the District established a master lease-purchase program for the lease-purchase financing of various current and future educational facilities and sites. The general terms of this program were determined pursuant to a Master Lease-Purchase Agreement and Master Trust Agreement between the District and the Leasing Corporation.

On May 28, 2010, the District entered into a financing arrangement with the Leasing Corporation under this program whereby the District secured financing under the Qualified School Construction Bonds (QSCB) in the amount of \$60,000,000. The QSCB program was established by Section 1521 of the American Recovery and Reinvestment Act (ARRA) and codified in Section 54A and 54F of the Internal Revenue Code. Among other things, the program provides low interest cost financing to school districts to construct certain educational facilities. Interest on the debt is paid by the District, and reimbursed in part by the federal government.

The financing was accomplished through the issuance of a School Board of Charlotte County, Florida Master Lease Program — Master Lease Certificates, Series 2010A — Qualified School Construction Bond (QSCB) in the principal amount of \$60,000,000. The certificate proceeds were from the lender (Bank of America) and designated for the replacement construction of two schools, Meadow Park Elementary School and Lemon Bay High School. Under terms of Lease Schedule 2010A to the Master Lease-Purchase Agreement, and other related agreements, the District provided a ground lease to the Leasing Corporation, then would construct, acquire, install and lease-purchase the projects from the Leasing Corporation.

Repayment of the original \$60,000,000 certificate proceeds is due in full on May 1, 2027. Interest payments are due semi-annually based on a 5.7% annual interest rate, and a federal interest subsidy reimbursement is available at an annual rate of 5.29%. (The subsidy was reduced for 2016, pursuant to the requirements of the *Balanced Budget and Emergency Deficit Control Act of 1985*, as amended. Interest payments in 2016 were \$3,420,000 and interest subsidies were \$2,958,168). Rent paid by the District to the Leasing Corporation corresponds to the annual debt service requirements on the bonds. Rents are paid from "Available Revenues" of the District, including capital outlay millage revenues. The lease term ends on the date the certificates are paid in full.

In connection with the financing and pursuant to a Series 2010A Supplemental Master Trust Agreement, the Leasing Corporation assigned its rights to the rent collections to a Trustee (Regions Bank), requiring the District to deposit the 17 annual "basic" rent payments of \$3,529,412 (corresponding to the principal portion of the bond), beginning in 2011, into a sinking fund held by the Trustee, as security for the bond. These amounts will be sufficient to pay the \$60 million

principal balance at maturity. Investment income earned in the Sinking Fund can be used to reduce future annual rent payments. At June 30, 2016, the market value of the sinking fund account was \$21,204,844.64.

### 3. State Bonds

State school bonds payable at June 30, 2016, are as follows:

Bond Type	Amount Outstanding	Interest Rates (Percent)*	Annual Maturity To
State School Bonds			
Series 2014-B, Refunding	1,003,000	2-S%	2020
Series 2009-A, Refunding	70,000	2-5%	2019
Subtotal	1,073,000		
Add: Unamortized Premium	103,035		
Total Bonds Payable	1,176,035		

The various bonds were issued by the State Board of Education to finance capital outlay projects of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2016, are as follows:

Fiscal Year Ending June 30	Total	Principal	Interest
State School Bonds			· ·
2017	510,970.00	459,000.00	51,970.00
2018	513,020.00	484,000.00	29,020.00
2019	78,820.00	74,000.00	4,820.00
2020	57,120.00	56,000.00	1,120.00
Total State School Bonds	1,159,930.00	1,073,000.00	86,930.00
Add: Unamortized Premium	103,034.81	103,034.81	
Total	\$1,262,964.81	\$1,176,034.81	\$86,930.00

### 4. Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities:

	Beginning				
	Balance			Ending	Due in
Description	(Restated)	Additions	Deductions	Balance	One Year
Governmental Activities			****		
Qualified Zone Academy Bond	\$5,000,000.00			\$5,000,000.00	
Qualifies School Construction Bond	60,000,000.00			60,000,000.00	
Bonds Payable	1,629,887.11	\$0.00	(453,852.30)	1,176,034.81	459,000.00
Estimated Insurance Claims Payable	2,082,408.40	15,454,674.63	(15,936,692.53)	1,600,390.50	
Compensated Absences Payable	11,460,746.93	1,833,592.21	(1,967,538.13)	11,326,801.01	1,833,592.21
Other Post-employment Ben. Oblig.	2,454,518.00	690,276.00	41,063.00	3,185,857.00	
Net Pension Liability	39,789,040.00	35,004,790.00	(18,650,952.00)	56,142,878.00	1,083,764.00
Total Governmental Activities	\$122,416,600.44	\$52,983,332.84	(\$36,967,971.96)	\$138,431,961.32	\$3,376,356.21

For the governmental activities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund. Estimated insurance claims payable are generally liquidated with resources of the internal service funds. Due to the nature of the liability, none of postemployment benefits obligations are considered due in one year.

### J. Interfund Receivables and Payables

The following is a summary of interfund receivables and payables reported in the fund financial statements:

	Interfu	nd
Funds	Receivables	Payables
Major Funds:		
General:	\$469,788.47	
Special Revenue:		
Special Revenue Fund - Other Federal		339,953.00
Fiduciary - Agency		129,835.47
Total	\$469,788.47	\$469,788.47

Interfund receivables and payables are temporary loans of cash between funds for a period of less than 13 months. The temporary loans will be repaid in the next fiscal year.

### K. Revenues and Expenditures/Expenses

### 1. Schedule of State Revenue Sources

The following is a schedule of the District's State revenue for the 2015-16 fiscal year:

Source	Amount
Florida Education Finance Program .	\$13,893,093.00
Categorical Educational Programs:	
Class-size Reduction/Operating Funds	16,863,345.00
School Recognition Funds	765,212.00
Voluntary Prekindergarten Program	566,369.12
State License Tax	85,3\$4.94
Workforce Development Program	2,372,784.00
Workforce Development Performance Incentive	55,091.00
Motor Vehicle License Tax (Capital Outlay and Debt Service)	676,993.19
Public Education Capital Outlay (PECO)	258,156.00
Miscellaneous	488,162.18
Total	\$36,024,560.43

Accounting policies relating to certain State revenue sources are described in Note I.G.2.

### 2. Property Taxes

The following is a summary of millages and taxes levied on the 2014 tax roll for the 2015-16 fiscal year:

	Millages	Taxes Levied
General Fund	<del></del>	
Nonvoted School Tax:		
Required Local Effort	4.949	\$69,800,533
Prior Period Funding Adjustment	0.014	197,456
Basic Discretionary Local Effort	0.748	10,549,767
Capital Projects Fund	notation of the control of the contr	
Nonvoted Tax:		
Local Capital Improvements	1.500	21,155,950
Total	7.2110	\$101,703,706

### L. <u>Interfund Transfers</u>

The following is a summary of interfund transfers reported in the fund financial statements:

	Inter	fund
Funds	Transfers In	Transfers Out
Major Funds:	****	
General	\$5,425,000.00	
Debt Service Funds:		
Qualified School Construction Bond	3,939,950.68	
Capital Projects:		
Capital Improvement Fund		8,849,503.08
Nonmajor Governmental Funds	242,708.40	258,156.00
Debt Service Funds:		
Internal Service Fund - Employee Benefits Fund		500,000.00
Total	\$9,607,659.08	\$9,607,659.08

Interfund transfers represent permanent transfers of money between funds. In general, funds are transferred to the General Fund from the Capital Projects Funds to finance various District maintenance projects and equipment purchases. Transfers to Debt Service Funds are to fund the required annual sinking fund payments.

### III. CONSORTIUMS

The District is a member of both the Small School District Council Consortium and the Greater Florida Consortium of School Boards. These consortiums are organized to provide educational information, interpretation, and consultation assistance to the affected Districts.

### IV. NON-FEDERAL SHARE FOR HEAD START PROGRAMS

For the Head Start and Early Head Start grants, the District is required to provide 20 percent of the total amount expended using non-Federal funds and donated goods and services. Local funds expended were for facilities, equipment and district support staff, such as therapists, psychologists and teachers. Donated goods and services were provided by the community and were used for the benefit of the program. During this fiscal year, for grant number 04CH4774/01 with a period ending October 31, 2015, the required amount of non-Federal share is \$199,286.92. For grant number 04CH4774/02 the required amount of non-Federal share during the period November 1, 2015 through June 30, 2016 is \$351,783.28.

FRS Contributions as a Percentage of the Covered-Employee Payroll	1.66%	1.26%	1.15%

### CHARLOTTE COUNTY DISTRICT SCHOOL BOARD NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2016

### I. BUDGETARY BASIS OF ACCOUNTING

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

### II. SCHEDULE OF FUNDING PROGRESS - OTHER POSTEMPLOYMENT BENEFITS

The January 1, 2016, projected unfunded actuarial accrued liability of \$5,273,623 increased from the January 1, 2014 liability of \$4,431,195 as a result of benefit changes and other changes in liabilities and costs as discussed below:

- Population Changes The number of enrolled retirees receiving postemployment health-care benefits increased from 68 in the previous valuation to 71 in the latest valuation. At the same time, the number of active employees eligible for future postemployment health-care benefits increased from 1,517 to 1,590. These changes had an increasing effect on the cost and liabilities.
- Initial Cost of Coverage and Retiree Contributions The total cost of coverage increased from \$792 per employee per month (as expected for year beginning January 1, 2014) to \$842 per employee per month for the year beginning January 1, 2016. This is lower than the \$919 per employee per month previously projected for this year. However, premiums charged to retirees

### CHARLOTTE COUNTY DISTRICT SCHOOL BOARD NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2016

remained level since the prior valuation, and as such had an effect of widening the gap between the costs and premiums collected from retirees. Combined changes had an increasing effect on the costs and liabilities.

- Medical Trend Assumption The actuary made revisions in the assumed trend of medical/prescription cost and premium increases. It was assumed previously that premiums and costs would increase at a rate of 7.0% for the 2017 plan year. They revised the trend rates for costs and premiums applicable to the year beginning January 1, 2017 to increase by 6.5%. Under the new model, assumed trend rates are expected to decline over a 23-year period from 6.25% assumed for the year 2018 to the ultimate level of 4.24%. This had a modest decreasing effect on the cost and liabilities.
- Retiree Medical Coverage Assumptions: The assumed rate of coverage
  acceptance has been revised to reflect based upon analysis of data collected for
  this year's valuation. In the previous valuation, we had assumed that 25% of
  retiring covered employees under the age of 65 would elect to continue medical
  coverage through the District's core plan. The current data suggests that more
  retirees have been making that choice in the recent years and, consequently, we
  are assuming that 30% of employees will elect to keep the coverage upon
  retirement. This change had an increasing effect on the costs and liabilities.
- Demographic Assumptions: The actuary has also revised certain demographic assumptions to align with the updated assumptions used by the Florida Retirement System for its July 1, 2015 actuarial valuation. This change had an increasing effect on the costs and liabilities.

### III. SCHEDULES OF NET PENSION LIABILITY AND SCHEDULES OF CONTRIBUTIONS

Changes of Benefit Terms:

No significant changes.

Changes of Assumptions:

FRS: As of June 30, 2015, there were no changes in actuarial assumptions. The inflation rate assumption remained at 2.60%, the real payroll growth assumption remained at .65%, and the overall payroll growth rate assumption remained at 3.25%. The long-term expected rate of return remained at 7.65%.

**HIS:** The municipal rate used to determine total pension liability was decreased from 4.29% to 3.80%.
