Charlotte County Public Schools - Early Childhood Programs,

This letter is to confirm that Center for Child Counseling is the only source for A Way of Being with Children: A Trauma Informed Approach to Building Resilience training.

Developed by Center for Child Counseling, 'A Way of Being with Children: A Trauma-Informed Approach to Building Resilience', is an 80-page educational guide and training for adult caregivers of children. The manual and training are research-informed from best practices, with skill-based applications customized and designed solely from the 20-year longitudinal implementation in Palm Beach County by the Center for Child Counseling staff and therapists.

Based upon the science of Adverse Childhood Experiences (ACEs), the impact of trauma on the developing brain and resilience, the curriculum has been utilized to train thousands of teachers and adult caregivers.

Please contact me directly at 561-800-6368 or dominika@centerforchildcounseling.org if you have any questions or would like additional information.
