*Example of how your vocab sheets should look*

**Vocabulary Unit #**

**Chapter 1**

**Political Geography**

Study of the political organization of the world—how politically meaningful spaces came into being and how these spaces influence outcomes.

This allows us to understand the boundaries and states which are put in place, who they were made by, and why (whether it was due to colonialism, imperialism, or ethnic cultural reasons).

**Elongated State**

State that is geographically long and relatively narrow. Such a state tends to have poor communication systems—people/regions at the ends tend to be isolated/disconnected, rather than being centralized like a compact state.

**Ex:** Chile, Sweden, Malawi
