To the fullest extent possible, it is the District's intent to provide the opportunity for all Charlotte County Public Schools students to experience a successful E-Learning environment conducive to continued instructional support and learning. To that end, all teachers will maintain "office hours."

- It is expected that teachers will provide "office hours" that are no fewer than four (4) hours per day during their regular work hours.
- Teachers are expected to return parent and student contact within one workday. This will provide students with teacher interaction via email, telephone, and/or through the online learning management systems.

Teachers are strongly encouraged to utilize the Remind communication system for all student and parent contact (phone and/or text).
