

March 2, 2020

This is Dr. Michael Desjardins, Assistant Superintendent of School Support for Charlotte County Public Schools. I am calling to update parents and guardians on the school systems response to the Coronavirus Situation that has now spread to Florida. We are working very closely with the Department of Health to monitor the situation and ensure all safety protocols are in place which include proactively cleaning our schools to prevent the potential spread of germs. On a daily basis, students and staff are being reminded to wash their hands with soap and water for at least 20 seconds. If your child has a fever please make sure they remain at home and fever free for at least 24 hours. As always, stay in contact with your health care provider and update your school nurse with any issues or concerns.

Please go to the school district website at:
yourcharlotteschools.net for additional information.

Thank you for your time and have a great night.
