

# POPCORN WORDS

Also known as: Sight Words

## What is a sight word?

Sight words are the most frequently used words in the English language. Many sight words DO NOT follow the phonetic rules of English, so children cannot sound them out and CANNOT be picture associated. They must learn them “on sight” without hesitation.

## Why do they need to learn sight words?

50-80% of every day conversation and readings revolve around sight words. When they know words “on sight” they have a strong base to begin reading. Research proves that if the mind spends less time decoding words, then more attention can be focused on comprehension. Mastering sight words means that children are prepared to read 50-80% of the story before they even open the book.
